J. Allen, 1998 Themes include the post structuralist appraisal of exchange the anthropology of the body practical techniques gesture systems the notions of substance materiality and the social person There are fresh insights

into comparative politics and history modern forms of charity and new readings of some political and historical aspects of Mauss work that bear on the analysis of regions such as Africa and the Middle East relatively neglected by the Durkheimian school and by structuralism *Royal Taste* Daniëlle De Vooght,2016-04-08 The explicit association between food and status was academically speaking first acknowledged on the food production level He who owned the land possessed the grain he who owned the mill had the flour he who owned the oven sold the bread However this conceptualization of power is dual next to the obvious demonstration of power on the production level is the social significance of food consumption Consumption of rich food in terms of quantity and quality was and is a means to show one s social status and to create or uphold power This book is concerned with the relationship between food consumption status and power Contributors address the old top of society and consider the way kings and queens emperors and dukes nobles and aristocrats wined and dined in the rapidly changing world of the late eighteenth and nineteenth centuries where the bourgeoisie and even the common people obtained political rights economic influence social importance and cultural authority The book questions the role of food consumption at courts and the significance of particular foodstuffs or ways of cooking deals with the number of guests and their place at the table and studies the way the courts under consideration influenced one another Topics include the role of sherry at the court of Queen Victoria as a means of representing middle class values the use of the truffle as a promotional gift at the Savoy court and the influence of European culture on banqueting at the Ottoman Palace Together the volume addresses issues of social networks prestige politics and diplomacy banquets and their design income and spending economic aims taste and preference cultural innovations social hierarchies material culture and many more social and cultural issues It will provide a useful entry into food history for scholars of court culture and anyone with an interest in modern cultural history

Global Social Economy: Development,, Work and Policy John B. Davis,2009-09-10 This volume expands on the standard economic framework of global economy by looking at the way in which economic life is framed by society and social relationships and investigates how social values influence and help determine economic values

The Object in the Gift Sharon Littlefield,1999 **Enterprise 2.0: The behavioral enterprise** Tracy L. Tuten,2010 Every day business leaders read about the shift in essential business practices and consumer buying behavior brought about by the Internet This two

volume set introduces readers to these shifts and shows them the way forward **Social Solidarity and the Gift** Aafke E. Komter,2004-11-15 This book brings together two traditions of thinking about social ties sociological theory on solidarity and anthropological theory on gift exchange The purpose of the book is to explore both how theoretical traditions may complete and enrich each other and how they may illuminate transformations in solidarity The main argument supported by empirical illustrations is that a theory of solidarity should incorporate some of the core insights from anthropological gift theory The book presents a theoretical model covering both positive and negative selective and excluding aspects and consequences of solidarity It is concluded that over the past century solidarity has undergone a fundamental transformation from Durkheim s

organic solidarity to a type of solidarity which can be called segmented separate autonomous social segments connecting with other segments no longer out of necessity and mutual dependency but on the basis of individual choice Solidarity has thereby become more noncommittal

Anthropos, 2007 *Anthropological Notebooks*, 2008 The Gift in the Economy and Society Stefan Kesting, Ioana Negru, Paolo Silvestri, 2020-12-28 Mainstream economics offers a perspective on the gift which is constructed around exchange axioms of self interest instrumental rationality and utility maximisation concepts that predominate within conventional forms of economic analysis Recognising the gift as an example of social practice underpinned by social institutions this book moves beyond this utilitarian approach to explore perspectives on the gift from social and institutional economics Through contributions from an international and interdisciplinary cast of authors the chapters explore key questions such as what is the relationship between social institutions on the one hand and gift exchange reciprocity on the other What are the social mechanisms that underpin gift and gift giving actions And finally what is the relationship between individuals societies gift giving and cooperation The answers to these questions and others serve to highlight the importance of the analysis of gift in economics and other social sciences The book also demonstrates the potential of the analysis of the gift to contribute to solving current problems for humanity at various levels of social aggregation This key text makes a significant contribution to the literature on the gift which will be of interest to readers of heterodox economics social anthropology philosophy of economics sociology and political philosophy

Modernity on a Shoestring Richard Fardon, Wim M. J. van Binsbergen, Rijk van Dijk, 1999

Solidarity Between the Sexes and the Generations Trudie Knijn, Aafke E. Komter, 2004 This book combines a theoretical and empirical cross national perspective to examine how societal transformations in European welfare states affect patterns of solidarity between men and women and across generations The authors research has highlighted substantial discrepancies in various countries between the assumptions made at the macro level of social policy on family issues and the reality of women s and men s contributions at home In countries where social policy relies on family solidarity as the main source of support this may result in growing social inequality Finally the chapters reveal the crucial role of women in the transformation of family life and welfare state policy These conclusions could have important ramifications for European welfare policy The cross national perspective allows for a detailed understanding of the similarities and differences between the various European countries and their policies Solidarity Between the Sexes and the Generations will appeal to scholars and researchers of social policy sociology and welfare as well as women and gender studies Because of its comparative perspective the book is also of interest to those involved in developing social policy in European countries
