Citizenship Beyond the State John Hoffman, 2004-05-25 Guide to the theories and debates that surround the key political concepts of state citizenship and democracy today

Perspectives on Welfare Alan Deacon, 2002-03-16 Of the several discussions of the American poverty theorists I have read this is easily the best Anyone interested in that debate should begin here Professor Lawrence M Mead New York University a compelling guide to the ideas that have shaped and seek to re shape welfare provision This is a student text that teachers will want to read first Professor Robert Walker University of Nottingham How do welfare benefits and services shape the attitudes behaviour and character of claimants Should entitlement be dependent upon good behaviour What are the major intellectual influences upon current welfare reforms in the UK and the US Is it possible to reform welfare in ways which tackle both social inequality and welfare dependency This lucid and engaging book provides an introduction to the current debates about the future direction of welfare reform on both sides of the Atlantic The first part outlines a range of different perspectives on welfare and shows how each of these perspectives rests upon a different assumption about the role and purpose of welfare policy and a different understanding of human nature and motivation Some of these perspectives see the primary role of welfare as to reduce inequalities while others see the central objective as the reduction of welfare dependency The second part shows how the current debates in Britain and the United States are informed by these perspectives and argues that debates about inequality and dependency are not mutually exclusive but address different dimensions of the same problem In all this illuminating and forward looking text is essential reading for courses in social policy health and social welfare as well as those with a political and wider interest in welfare reform

Postmodernism and Public Policy John B. Cobb Jr., 2012-02-01 One of America s preeminent systematic theologians John B Cobb Jr examines a range of social issues in his latest groundbreaking work

Postmodernism and Public Policy Cobb uses a naturalistic postmodern perspective to make constructive proposals about a wide range of topics in the public eye Postmodernism and Public Policy shows how a postmodern Christianity can contribute positively to thinking about religious and cultural pluralism and how this can give direction to the educational enterprise It proposes ways of understanding sex gender and race that take diversity seriously without lapsing into a debilitating relativism that inhibits political action Arguing for a shift from individualism to thinking of persons in community it proposes that the world be organized from the bottom up in communities of communities and spells out what this implies for the political and economic orders and the relationship between them Cobb shows that formulations on all these topics can be coherently interconnected and he develops the implications of such thinking for some specific ethical and political issues that now trouble the United States such as abortion physician assisted suicide and homosexuality

Communitarianism in Law and Society Paul Van Seters,2006-04-18 In this new collection of essays Paul van Seters brings together an international group of scholars from diverse academic backgrounds to reflect upon the remarkable rise of communitarianism in contemporary studies of law and society Taking account of the intricate relationship between law and communitarianism these essays critically assess the communitarian perspective in order to gain a more systematic insight into its distinctive constraints and the special opportunities it provides At its core this work contends that law necessarily presupposes community but also essentially extends it Arguing that communitarianism must be understood as an effort to reconstruct liberalism and not just debunk it Communitarianism in Law and Society explores what good is to come of this movement for legal theory and practice

Interpersonal Culture on the Internet Sarah N. Gatson,Amada Zweerink,2004 Community is a highly contested concept and in the milieu of mass media it is even more highly fraught The book is a community formation narrative adding to our common database of emergent community practice on the Internet The book bolsters our understandings of the substantive processes involved particularly those of boundary formation spatial dimensions of communities and how communities are always both embedded and emerging entities Finally it deals with the question of how seamless and or disruptive the new technology of the Internet is vis a vis our traditional practices of community formation and maintenance We are interested in a problem with communities based in media fandoms Eventually the artist will quit making music the movie will cease to

have sequels or the television show will get cancelled What happens to these communities when their basis of interest goes away Is the bond of community enough to keep them together Why do people fracture into other groups Why do some hold on to the one for all all for one mentality chosen offline or do they stick by the friends they made in the community who would not ordinarily be their type In the last couple of years of working with this community the ways in which one gauges when a community ends and when it merely morphs into some other kind of interpersonal phenomenon have been at the forefront of our research The book is ethnographic in method and deals with community concepts such as networks geography boundaries and politics

Restructuring and Resistance Mike Burke,Colin Peter Mooers,John Shields,2000 This collection surveys major areas of neoliberal policy restructuring by various levels of Canadian government Unlike other academic studies it also considers theoretical and practical issues connected with movements of resistance against the neo liberal agenda Part one situates these developments theoretically in the context of globalizing capitalism and the changing role of the state the labour market policy formation and federalism Section two examines six major areas of policy restructuring ranging from health care and education to human rights and communication policy The final section considers the strengths and weaknesses of current political strategies of resistance and the new challenges imposed by global capitalist restructuring This volume provides both a vital assessment of the social consequences of neoliberal restructuring and a provocative contribution to the debate over the renewal of the left in Canada pub desc

Sociology ,1999 *Infrastructure-based Community Development* Wicaksono Sarosa,2001 Public Relations Review Foundation for Public Relations Research and Education (U.S.),2001 *Children on the Boundaries of Time and Space in Sub-Saharan Africa* Theophilus Kofi Gokah,2006 Children on the Boundaries of Time and Space in sub Saharan Africa has come at the time when children TM s well being is on the agendas of governments policy makers schools and community organisations It provides an in depth analysis of the relation between official children

Children's rights and well-being policies and their implementation refracted through African as well as Western lenses. The content of the book is a departure from conventional stereotype approach to children's well-being analysis in sub-Saharan Africa. In addressing issues around children's rights and well-being, the book offers a reflection on the conflict between adult society and government welfare policies. The book also draws on existing knowledge about national and international efforts to change adult attitudes towards children. Analysis in the book demonstrates that there are both structural and operational problems in children's rights and policies governing their well-being in sub-Saharan Africa. This sort of work has been neglected since the last few decades and has created a gulf between government policy rhetoric and practice. Children on the Boundaries of Time and Space in sub-Saharan Africa bridges that gap and reasserts the need for effective policy material. Changes in resources and cultural change valuable to enhance children's ability to stay healthy, grow and learn to become responsible citizens.
