## **Essential Cowell:**

Essential Cowell Henry Cowell, 2001      Johanna Beyer Amy C. Beal, 2015-02-28 Composer Johanna Beyer's fascinating body of music and enigmatic life story constitute an important chapter in American music history. As a hard working German migr piano teacher and accompanist living in and around New York City during the New Deal era she composed plentiful music for piano percussion ensemble chamber groups choir band and orchestra. A one time student of Ruth Crawford Charles Seeger and Henry Cowell Beyer was an ultramodernist and an active member of a community that included now better known composers and musicians. Only one of her works was published and only one recorded during her lifetime. But contemporary musicians who play Beyer's compositions are intrigued by her originality. Amy C Beal chronicles Beyer's life from her early participation in New York's contemporary music scene through her performances at the Federal Music Project's Composers Forum Laboratory concerts to her unfortunate early death in 1944. This book is a portrait of a passionate and creative woman underestimated by her music community even as she tirelessly applied her gifts with compositional rigor. The first book length study of the composer's life and music Johanna Beyer reclaims a uniquely innovative artist and body of work for a new generation.

*Postnational Musical Identities* Ignacio Corona, Alejandro L. Madrid, 2008-01-01 The interdisciplinary essays gathered in this volume explore how music audiences and markets are imagined in a globalized scenario how music reflects and reflects upon new understandings of citizenship beyond the nation state and how music works as a site of resistance against globalization. Focusing on the Americas they cast a new light on the role of music production distribution and consumption beyond the traditional paradigms of musical discourse.

**The Dark Tree** Steve Isoardi, 2006-04-10 Isoardi has done a wonderful job collecting oral histories and integrating them into an engaging sophisticated and highly readable book. He provides great insight into the artistic goals political aspirations internal conflicts and social terrain that shaped the experiences of the Pan Afrikan Peoples Arkestra. He shows us quite clearly that jazz musicians continued to work within and gain sustenance from working class black communities long after the moment when some observers deemed the music irrelevant to them. Eric Porter author of *What Is This Thing Called Jazz* In these pages Horace Tapscott says to the audience This is one more you wrote through us. And this is what Steve Isoardi has done here given voice to the nearly lost history of a revolutionary community movement through its key players. Epic in scope dazzling in detail and sensual as any Coltrane solo this rare book informative intimate lyrical scholarly nuanced and essential reads like no history book you've read before. Chris Abani author of *GraceLand* and *Becoming Abigail* The Dark Tree is just wonderful. One cannot understand the history of black arts on the West Coast without a thorough assessment of this movement. Isoardi knows this history so well and tells a much bigger story. The book does a fantastic job of capturing the nitty gritty nature of the music scene and of resurrecting local figures in the Arkestra who have never gotten any press for their astounding musicianship. This is a remarkable book. Robin Kelley author of *Freedom Dreams* *The Black Radical Imagination*

This is a revelatory document virtuosically combining scholarship and oral history to connect the dots of African American music on the west coast Far more than a mere historical overdub of an underdocumented scene this book disrupts the mythic notions of jazz history showing instead how music and community unfold as one Both a celebratory and a cautionary tale it also delivers some of the most frank and eye opening musicians accounts since Arthur Taylor s Notes and Tones Vijay Iyer musician composer New York City

**Charles Ives in the Mirror** David C Paul,2013-04-01 American composer Charles Ives 1874 1954 has gone from being a virtual unknown to become one of the most respected and lauded composers in American music In this sweeping survey of intellectual and musical history David C Paul tells the new story of how Ives s music was shaped by shifting conceptions of American identity within and outside of musical culture charting the changes in the reception of Ives across the twentieth century and into the twenty first century Paul focuses on the critics composers performers and scholars whose contributions were most influential in shaping the critical discourse on Ives many of them marquee names of American musical culture themselves including Henry Cowell Aaron Copland Elliott Carter and Leonard Bernstein Paul explores both how Ives positioned his music amid changing philosophical and aesthetic currents and how others interpreted his contributions to American music Although Ives s initial efforts to find a public in the early twenties attracted a few devotees the resurgence of interest in the American literary past during the thirties made a concert staple of his Concord Sonata a work dedicated to nineteenth century transcendentalist writers Paul shows how Ives was subsequently deployed as an icon of American freedom during the early Cold War period and how he came to be instigated at the head of a line of American maverick composers Paul also examines why a recent cadre of scholars has beset the composer with Gilded Age social anxieties By embedding Ives reception within the changing developments of a wide range of fields including intellectual history American studies literature musicology and American politics and society in general Charles Ives in the Mirror American Histories of an Iconic Composer greatly advances our understanding of Ives and his influence on nearly a century of American culture

*Narrowcast* Lytle Shaw,2018-06-12 *Narrowcast* explores how mid century American poets associated with the New Left mobilized tape recording as a new form of sonic field research even as they themselves were being subjected to tape based surveillance Media theorists tend to understand audio recording as a technique for separating bodies from sounds but this book listens closely to tape s embedded information offering a counterintuitive site specific account of 1960s poetic recordings Allen Ginsberg Charles Olson Larry Eigner and Amiri Baraka all used recording to contest models of time being put forward by dominant media and the state exploring non monumental time and subverting media schedules of work consumption leisure and national crises Surprisingly their methods at once dovetailed with those of the state collecting evidence against them and ran up against the same technological limits Arguing that CIA and FBI researchers shared unexpected terrain not only with poets but with famous theorists such as Fredric Jameson and Hayden White Lytle Shaw reframes the status of tape recordings in postwar poetics and challenges notions of how tape might be
