Sourcebook of Family Theories and Methods Pauline Boss, William J. Doherty, Ralph LaRossa, Walter R. Schumm, Suzanne K. Steinmetz, 2008-11-19 Origins We call this book on theoretical orientations and methodological strategies in family studies a sourcebook because it details the social and personal roots i e sources from which these orientations and strategies flow Thus an appropriate way to preface this book is to talk first of its roots its beginnings In the mid 1980s there emerged in some quarters the sense that it was time for family studies to take stock of itself A goal was thus set to write a book that like Janus would face both backward and forward a book that would give readers both a perspective on the past and a map for the future There were precedents for such a project The Handbook of Marriage and the Family edited by Harold Christensen and published in 1964 the two Contemporary Theories about the Family volumes edited by Wesley Burr Reuben Hill F Ivan Nye and Ira Reiss published in 1979 and the Handbook of Marriage and the Family edited by Marvin Sussman and Suzanne Steinmetz then in production

A History of Group Study and Psychodynamic Organizations Amy Louise Fraher, 2004 Many people hold a piece of the puzzle of group relations yet few people are able to put them together in a meaningful way In this breakthrough study Amy L Fraher provides the most comprehensive account yet written of the history of institutes of group study The book draws on original documents as well as extensive interviews with key practitioners The result is a fascinating story of the complex dynamics of organizational life Developing the construct of idea organizations organizations designed to generate intellectual concepts rather than to produce goods or services Fraher examines the psychodynamic workings of the National Training Laboratories Tavistock and A K Rice Institutes as well as early psychoanalytic societies She shows how the innovatory forces that energize these idea organizations can become the focus of inter group rivalries creating a cycle that puts the organizations themselves at risk Fraher details the cycle of idea organizations through the contributions of experts in the field such as David Armstrong Gordon Lawrence Isabel Menzies Lyth Laurence Gould Eric Miller and Kathleen Pogue White and others She also uses A K Rice's previously unavailable field notes and director's reports to provide a documented overview of group relations theory and conference methodology not offered since Rice's own Learning for Leadership in 1965 This is an accessible and absorbing study suitable both for experts and those new to the study of groups
