Group Technology At Work Manufacturing Update Series

Judd E. Hollander

Group Technology At Work Manufacturing Update Series:

One Hundred Years of Sci-Tech Libraries Ellis Mount, 2020-06-04 This book first published in 1988 celebrates the development of sci tech libraries in honour of the one hundredth anniversary of the founding of the first library school in the United States The expert contributors provide a survey of the development of sci tech libraries as well as some thoughts about their future This comprehensive volume covers several types of sci tech libraries information retrieval and library education Library professionals will be fascinated but the journey of progress detailed in these well written chapters

Manufacturing Systems and Technologies for the New Frontier Mamoru Mitsuishi, Kanji Ueda, Fumihiko Kimura, 2008-05-14 Collected here are 112 papers concerned with all manner of new directions in manufacturing systems given at the 41st CIRP Conference on Manufacturing Systems The high quality material presented in this volume includes reports of work from both scientific and engineering standpoints and several invited and keynote papers addressing the current cutting edge and likely future trends in manufacturing systems The book's subjects include 1 new trends in manufacturing systems design sustainable design ubiquitous manufacturing emergent synthesis service engineering value creation cost engineering human and social aspects of manufacturing etc 2 new applications for manufacturing systems medical life science optics NEMS etc 3 intelligent use of advanced methods and new materials new manufacturing process technologies high hardness materials bio medical materials etc 4 integration and control for new machines compound machine tools rapid prototyping printing process integration etc

Production & Operations Management Upendra Kachru, 2009 This book takes a pedagogical approach that is participative and interactive involving the case study method of learning Chapters start with an Indian case study of a well known company This is used as a capstone case for the chapter The student will find this an easy learning experience as data and additional information for these enterprises is readily available The selection of such cases makes classroom learning truly suited to the Indian business environment The value driven approach to Operations Management is used in structuring the text into three modules The first module discusses the infrastructure function of Operations Management Infrastructure function is considered to be product process capacity and location Module Two describes the structure of the operations function This includes quality and other product transformation processes Module Three focuses on the organization people and processes i e the job the work and the workplace In addition most of the mathematical techniques have been separated into supplements attached to the relevant chapters Software solutions for the techniques have been explained in the text Every mathematical technique is exemplified with a number of solved problems Unlike many Production and Operations Management texts this book covers E commerce Industrial Safety Maintenance Environmental Management Green Productivity and new technological trends in the discipline These sections should add to the significance of exploring how firms can gain competitive advantage and promote sustainable development at the same time The last section of the book comprises of a selection of cases from The Indian Institute of

Management at Ahmedabad The cases encompass the entire spectrum of Indian Industry the private and the public sectors professional and family managed business organizations service and manufacturing industries single industry and conglomerates The cases relate to Operations Strategy Supply Chain Management Capacity Planning New Products Manufacturing Technologies etc The Case Studies are of world class Prof Tirupati one of the authors of the case studies according to Management Science has penned one of the top 100 management articles in the 50 years The book is comprehensive lucid and easy to read and understand It should be of great value both to students and faculty

Group Technology and Cellular Manufacturing Nallan C. Suresh, John M. Kay, 2012-12-06 Group Technology and Cellular Manufacturing GT CM have been widely researched areas in the past 15 years and much progress has been made in all branches of GT CM Resulting from this research activity has been a proliferation of techniques for part machine grouping engineering data bases expert system based design methods for identifying part families new analytical and simulation tools for evaluating performance of cells new types of cell incorporating robotics and flexible automation team based approaches for organizing the work force and much more however the field lacks a careful compilation of this research and its outcomes The editors of this book have commissioned leading researchers and implementers to prepare specific treatments of topics for their special areas of expertise in this broad based philosophy of manufacturing The editors have sought to be global both in coverage of topic matters and contributors Group Technology and Cellular Manufacturing addresses the needs and interests of three groups of individuals in the manufacturing field academic researchers industry practitioners and students 1 The book provides an up to date perspective incorporating the advances made in GT CM during the past 15 years As a natural extension to this research it synthesizes the latest industry practices and outcomes to guide research to greater real world relevance 2 The book makes clear the foundations of GT CM from the core elements of new developments which are aimed at reducing developmental and manufacturing lead times costs and at improving business quality and performance 3 Finally the book can be used as a textbook for graduate students in engineering and management for studying the field of Group Technology and Cellular Manufacturing

Production Management K. G. Lockyer, 1983 Managing Change, Creativity and Innovation Patrick Dawson, Constantine Andriopoulos, 2021-04-28 This bestselling text brings a fresh and unique approach to managing organizational change taking the view that change creativity and innovation are interconnected It offers a strong theoretical understanding of change creativity and innovation along with practical guidance and ideas for organizational change and development The fourth edition comes with lots of brand new case studies and examples from around the world extra content on innovation and technology extended discussion and an additional chapter on the people aspects of change that includes culture sensemaking and temporality Written in an engaging and accessible style this book is essential for those studying organizational change management or creativity and innovation
