**Counterterrorism Bureaucracies in the United Nations and the European Union** Hendrik Hegemann,2015-03-26

Since the attacks of September 11 2001 a complex web of international structures and rules for the fight against transnational terrorism has emerged However previous research disregarded the organizational basis of counterterrorism cooperation Using the example of bureaucratic actors in the United Nations and the European Union this study examines how and to what degree international counterterrorism bureaucracies exercise autonomy and perform distinct functions The book reveals the special ambivalence of counterterrorism cooperation for international bureaucracies which need to reconcile calls for effective counterterrorism with the need to maintain an impression of technical impartiality in a particularly contested policy field They respond to this challenge with different strategies of politicization and depoliticization

**International Folklore Review** ,1990 **Counter-Terrorism and International Law** Katja L.H. Samuel,2017-03-02

The articles and essays in this volume consider the problem of international terrorism from an international legal perspective The articles address a range of issues starting with the dilemma of how to reach agreement on what constitutes terrorism and how to encapsulate this in a legitimate definition The essays move on to examine the varied responses to terrorism by states and international organisations These responses range from the suppression conventions of the Cold War which were directed at criminalising and punishing various manifestations of terrorism to more coercive executive led responses Finally the articles consider the role of the Security Council in developing legal regimes to combat terrorism for example by the use of targeted sanctions or by general legislative measures An evaluation of the contribution of the sum of these measures to the goals of peace and security as embodied in the UN Charter is central to this collection **The Navy** ,1915 Proceedings
