Elijah longs to be a scientist to follow in the footsteps of his heroes But as a member of the Horebite church such dreams will never be possible Instructed by his father and his church to listen for The Still Small Voice that will inform his life Elijah finds himself trapped between a modern world and an ancient belief system until the discovery of his hidden scientific apparatus brings these two worlds together with unexpected results The Invention of Telepathy, 1870-1901 Roger Luckhurst, 2002

The Invention of Telepathy explores one of the enduring concepts to emerge from the late nineteenth century Telepathy was coined by Frederic Myers in 1882 He defined it as the communication of any kind from one mind to another independently of the recognised channels of sense By 1901 it had become a disputed phenomenon amongst physical scientists yet was the royal road to the unconscious mind Telepathy was discussed by eminent men and women of the day including Sigmund Freud Thomas Huxley Henry and William James Mary Kingsley Andrew Lang Vernon Lee W T Stead and Oscar Wilde Did telepathy signal evolutionary advance or possible decline Could it be a means of binding the Empire closer together or was it used by natives to subvert imperial communications Were women more sensitive than men and if so why Roger Luckhurst investigates these questions in an exciting and accessible study that mixes history of science with cultural history and literary analysis
