Gods Sign Language To Humanity:

God's Sign Language to Humanity Peter Popoff, *God and His Coexistent Relations to the Universe:* George D. Shollenberger, 2014-01-30 In the book *God and His Coexistent Relations to the Universe* the author is rejecting the universe that Judaism Christianity Islam Isaac Newton and Albert Einstein have accepted for a long period To replace this old universe an improved universe appeared from the thoughts of Confucius Anaxagoras Plato and Jesus who taught the death of our sun in Ch 24 of Matthew Unfortunately this teaching by Jesus was quieted for fifteen centuries by Irenaeus until Copernicus stood up and said that earth is not the center of the universe So an improved universe was becoming very interesting to many scientists This improved universe of Copernicus would expand when Kepler found that our sun has a system of eight precise planets Slowly the improved universe would become very clear when Leibniz found the immortal human souls and when Galileo found the bodies are made by these immortal souls In 1766 Ben Franklin went to Germany in order to learn the immortal souls of Leibniz In the next ten years Americans would separate America from England which still accepts the old universe After this separation more discoveries would come to the USA from German and Chinese thoughts For example Riemann would tell the world that the relationships of bodies in the universe can be determined only by our senses and measurements With Riemann's statement the author concluded that God is always active The author also found that God and the bodies in the universe come together with co-existent concepts With these advances the author rejects the old universe and says that the people of many nations will form a new religion under an active God **The Theosophical Review**, 1908

The Philosophy of Religion on the Basis of Its History Otto Pfliegerer, 1888 **The Signs and Symbols of Primordial Man** Albert Churchward, 1913 Albert Churchward's famous study of Ancient Egyptian myths and symbology reveals how their mythological culture evolved over thousands of years influencing other civilizations The author was among the first Western scholars to investigate the connection between the religious symbols deities and traditions of Egypt and those which emerged in later societies By studying the hieroglyphic texts preserved in the monuments and papyrus of the Egyptian society Churchward uncovered the origins of legendary stories the roles of Gods like Horus and Ptah and the emergence of important symbols such as the triangle cross and swastika The religious and cultural influence of this ancient society whose dynasties stretched across millennia is revealed to be of staggering magnitude This book pieces together the connections between Egyptian lore and that of the Hebrews the Freemasons the Mayans and various tribal societies The depth of Churchward's enquiry is enormous hundreds of drawings symbols and photographs accompany the narrative that the reader may discover the myriad connections and wide ranging influence of the Egyptians from antiquity onward Frequent quotations and cites of accomplished workers in the field of Egyptology such as Dr Wallis Budge and Gerald Massey further support the points established Ancient Egypt, the Light of the World Gerald Massey, 1907 **The Philosophy of Religion** Otto Pfliegerer, 1888 **Lectionary Preaching Workbook** Russell F.
