God Country Family:

The Enemy Within Michael Savage, 2005-03-06 America's bravest brash voice is back as ferocious and cutting as ever. Where has six decades of radical mad dog liberalism brought us? Savage asks in his electrifying new book. I'll tell you where America is teetering on the cliffs of insanity. Written with the fire, the conviction, and the clear vision of a modern day prophet, Savage returns with a vengeance in this lightning rod of a book speaking for all Americans who are fed up and ticked off at the corrosive influence of today's psycho liberals, the Democrats as he calls them. They're speeding down the pathway of good intentions. Their mantra: Celebrate perversity, embrace ultra tolerance, pay rape a nation's so-called reparations, support affirmative racism, and provide government subsidies for every illegal who sneaks across the border. In their haste to push failed socialist ideals, the libs have placed us on a crash course of total destruction. Even while the heated controversy of his New York Times bestseller *The Savage Nation* still simmers, Michael Savage raises his weapons of matchless wit and moxie again, this time aiming his sights on the liberal assault on our most cherished institutions and taking a stand for our schools, our faith, our police and armed forces, and most important, our families. It isn't always pretty. You might even at times become uncomfortable. But as you read on, you'll find these pages always contain the Savage truth: That is how to fight the Enemy Within. Filled with riotous rage and blistering humor, this book inspires as it enflames, encouraging Americans to reclaim our country, our government, our national integrity.

Our Human Herds Stephen Martin Fritz, 2020-09-04 *Our Human Herds* presents a new theory in moral and political philosophy called dual morality. The theory proposes that just as the physical senses of sight, smell, taste, touch, and hearing evolved to help us navigate our physical environment, two independent moral senses evolved to guide us to success in our social world. One prioritizes cooperation, the other competition. The first bases moral justification on the egalitarianism that emphasizes our equal worth; the other finds moral justification in the inequalities that allow us to distinguish better from worse. Liberal and conservative are merely the names given to the political manifestations of these two forms of moral expression, just as socialist and capitalist describe their economic manifestations and personality and character their psychological ones. *Our Human Herds* addresses what it means to be a human being, why we fight about the things that divide us, and why we unite behind the ideas that draw us together. The book examines all aspects of human social behavior, revealing how and why we often disagree in our approaches to education, history, war, crime, pleasure, happiness, politics, science, and religion. This is a learned, thoroughly researched study and dazzlingly bright. The effervescent approach to writing makes its pages fly by. Studies as brilliant as this one deserve a far wider audience. An engrossing and mind-expanding examination of morality. Kirkus Reviews Book Review. A vast philosophical study charts the shifting moral landscape while tackling the weightiest question of human existence: what is the meaning of life? Humanity's moral framework remains in a constant state of reconstruction. As the author points out in his opening chapter: Two hundred years ago, if a woman was raped and became pregnant, we'd kill the rapist and spare the baby. Today we

spare rapist and kill the baby Centuries ago many cultures condoned polygamy today we put people in jail for it Over the course of this weighty tome which is just shy of 1 000 pages the author ponders what morality is with an emphasis on humans as grouping or herding creatures and the causes of its flux and reflux Furthermore there is an attempt to reconcile opposing philosophical theories by introducing a new conceptual model called Dual Morality proposed as an all encompassing blueprint of human morality The study is logically structured divided into four sections The Theory of Dual Moralism The Explanation including investigations of the group and the self The Derivations which considers family country religion and science nature technology and finally The Extrapolations a far reaching look at everything from pleasure and happiness to suicide murder and abortion The author possesses the rare skill of being able to explore himself with an enviable ease drawing on palatable references to popular culture For example Comedian Woody Allen said he laughs at his own jokes when they first come to him because humor originates in the unconscious When his conscious mind hears them for the first time it is as if they came from another place and so we are in a way an audience to our own humor This approach applied throughout makes complex ideas not only accessible but entertaining and enjoyable as well The result is far from the predictable dry academic thesis This is a learned thoroughly researched study and dazzlingly bright The effervescent approach to writing makes its 951 pages fly by Fritz s dedication is to that miniscule fragment of humanity who read books like this Studies as brilliant as this one deserve a far wider audience An engrossing and mind expanding examination of morality Kirkus Indie Kirkus Media LLC 6411 Burleson Rd Austin TX 78744 indie kirkusreviews

The Political Economy of Iran Farhad Gohardani,Zahra Tizro,2019-03-07 This study entails a theoretical reading of the Iranian modern history and follows an interdisciplinary agenda at the intersection of philosophy psychoanalysis economics and politics and intends to offer a novel framework for the analysis of socio economic development in Iran in the modern era A brief review of Iranian modern history from the Constitutional Revolution to the Oil Nationalization Movement the 1979 Islamic Revolution and the recent Reformist and Green Movements demonstrates that Iranian people travelled full circle This historical experience of socio economic development revolving around the bitter question of Why are we backward and its manifestation in perpetual socio political instability and violence is the subject matter of this study Michel Foucault s conceived relation between the production of truth and production of wealth captures the essence of hypothesis offered in this study Foucault 1980 93 94 maintains that In the last analysis we must produce truth as we must produce wealth indeed we must produce truth in order to produce wealth in the first place Based on a hybrid methodology combining hermeneutics of understanding and hermeneutics of suspicion this monograph proposes that the failure to produce wealth has had particular roots in the failure in the production of truth and trust At the heart of the proposed theoretical model is the following formula the Iranian subject s confused preference structure culminates in the formation of unstable coalitions which in turn leads to institutional failure creating a chaotic social order and a turbulent history as experienced by the Iranian nation in the modern era As such the

society oscillates between the chaotic states of socio political anarchy emanating from irreconcilable differences between and within social assemblages and their affiliated hybrid forms of regimes of truth in the springs of freedom and repressive states of order in the winters of discontent Each time after the experience of chaos the order is restored based on the emergence of a final arbiter Iranian leviathan as the evolved coping strategy for achieving conflict resolution This highly volatile truth cycle produces the experience of socio economic backwardness and violence The explanatory power of the theoretical framework offered in the study exploring the relation between the production of truth trust and wealth is demonstrated via providing historical examples from strong events of Iranian modern history The significant policy implications of the model are explored This monograph will appeal to researchers scholars graduate students policy makers and anyone interested in the Middle Eastern politics Iran development studies and political economy
