God, Man, and the Planetary Age Nicholas J. Yonker,1978 On God's Path: The Unfolding Story of Humanity S.

Craig George,2010-06-25 On God s Path The Unfolding Story of Humanity is an optimistic realistic and pious view of humanity s role on the stage of creation In this generation a variety of competing stories have been told to explain where we came from and where we are going each story told with sincere conviction These stories seem to turn on two centers science and religion and they are often placed in opposition The theme of this book is that the truths of science and religion need not be viewed as mutually exclusive but complementary in the big picture With significant advances in both science and theology in the recent past we have much more information to attempt to incorporate in humanity s story than ever before More dots to connect give us a better chance of bringing into focus a much larger and more inclusive picture of where we came from and where we may be going The story of humanity as presented in this book begins with the first moment of the cosmos and traces the rise of the human physically socially and morally It engages the reader to consider humanity s trajectory With a Christian perspective respectful of all faiths the author weaves the human religious impulse and the Spirit of Christ together brightly into the tapestry of Creation Written with the lay reader in mind On God s Path presents a wide spectrum of mainstream contemporary scientific and theological ideas in surprisingly straightforward and creative ways Part of the author s objective in this book is to challenge readers to expand their thinking about God and science and to reconsider their own roles in advancing the human story God in Cosmic History Ted Peters,2017 Perhaps inadvertently historians have often eliminated the religious chapters those episodes in history during which human insights into transcendence and divinity have shaped human consciousness from our planet s story This book tells the story of cosmic history as big historians tell it beginning with the big bang and explores the question of God hidden beneath this story The book pauses on the Axial Age of

human history a moment during the first millennium BCE in which questions of transcendence first simultaneously arose in distinct locations around the world By exploring this threshold in cosmic history the author demonstrates the way the arrival of the God question marked a radical new human consciousness one that ultimately laid the groundwork for the modern age

God'S Intelligent Design for Planet Earth Mike Morra,2013-12-17 This book is about God the Creator of all from nothingness to beyond the Multiverse from cosmic darkness to spiritual light while surrounding all of His Creation with universal beauty Godless scholars claim their discoveries as the engine of historic progress but in truth it has been the Divine revelation of ideas that have propelled the evolution of Mankind Often we are discovering that the greatest of human genius has been wrong in their attempts to explain the physical basics of existence Likewise their vision of the natural world and the course of cultural spiritual advancement have been flawed Albert Einsteins theories were wrong Even he admitted that his universal constant that attempted to describe the mechanics of Outer Space was a colossal miscalculation The philosophies of the most noteworthy of Greek intellectuals Aristotle Socrates and Plato widely taught today in academia as the pathway to truth have failed to anticipate the Mosaic Moral Order and Gods personal relationship with each human soul Nobel Prize winner Linus Pauling proposed a triple helix for the DNA and he was proven wrong Along with the mathematical limitations posed by Isaac Newton and Rene Descartes Galileos science atomic theory quantum physics string theory Darwins biology Freuds account of the psyche and many other intellectual gaffes made throughout the Eras have been proven erroneous and or partial truths Has the acquisition of knowledge been a continuous rational phenomenon leading to truth Or will godless reasoning always be imperfect to grasp the Divine complexities of the cosmos Why cant rational mathematics explain the irrational numbers such as the Fibonacci series the Golden Proportion and the triangular ratios of sine cosine and hypotenuse Has Gods wisdom been revealing to scholars the rudiments of His Creation throughout the Eras or have the godless arrogant intellectuals been discovering the created fundamentals of the cosmos as revealed through time by a Higher Power Has the issuing of the Nobel Prize been sacrosanct or simply the rewarding of scientific mistakes and limitations via political cultural correctness Only God and the message of Jesus have perfectly survived to inspire the ideational and spiritual Ages

Planet Earth Under Divine Judgment Shawki Hanna,2018-09-16 Earthquakes floods forest fires famine pestilence disease volcanos tsunamis terrorism violence economic uncertainty racial and ethnic turmoil war What does it all mean What is the earth coming to People are afraid and wondering what the future might hold It seems there is no security anymore Upon finishing this book the reader will have the inside story regarding what the future really holds for mankind Some of life s most pressing questions will be answered such as What happens when you die Will the inhabitants of this earth annihilate themselves Will the earth end with a bang or a whimper Is there any hope for a brighter future This book is written from a unique perspective the perspective of a layman who has been fascinated with Biblical prophecy for years All the points made are amply supported from Scripture alone His desire is to share a different viewpoint which will awaken readers to study and

think for themselves In years gone by many people put their hope and confidence in God but it seems now in the public square no one even thinks or cares about God But awake God is still in control and He knows the end from the beginning He created this earth and He has not just left it to run on its own He is intimately concerned about everything that happens and He has grand plans for it Read this book and find out what they are The book recounts the great themes of the Bible themes of faith the nature of God and the Trinity Christ in the Old Testament Christ s atoning sacrifice on the cross and His resurrection bringing the promise of salvation to all mankind Difficult subjects are addressed such as what happens when a person dies and the Antichrist as well as the signs of the end of the world the final judgments of God on unrepentant humanity as vividly portrayed in Revelation and the last great battle when Jesus Christ is victorious over the Devil See how the prophecies of Daniel Ezekiel Joel and Zechariah in the Old Testament dovetail perfectly with what Christ foretold and what John was shown in Revelation The prophecies of the end of the age are more exciting than any thriller developed for TV or movies Extremely difficult times are coming This book will teach the reader how to survive the times of tribulation Learn how a loving God will bring destruction upon the inhabitants of the earth He has been pleading for millennia for His creatures to commit themselves to Him but they would not Evil has increased to the point where God in His mercy must also display His justice and vengeance and bring an end to it all It is a strange act for this God of love but He has no choice The inhabitants of earth have not only been destroying themselves but they have destroyed the earth God must intervene according to His appointed time which is coming soon He can no longer bear to see His creation suffering The destruction on earth is not the end of the story The world will not just be destroyed and forgotten There is wonderful hope and good news Evil will not have the last word God will have it King Jesus the Messiah is coming back to this earth again not as a tiny helpless baby but as a warrior King He will rule and His believers will reign with Him for eternity There will be new heavens and a new earth more glorious than anyone could ever imagine There will be no more death sorrow pain or crying Are you prepared for His coming

Earth Age Lorna Green,1994-01-01 Lorna Green introduces her earth centered view of spirituality revealing a new way to view the universe ourselves and the Earth Asking readers to embrace the Earth anew she calls attention to its destruction then moves to the ideas of the great tradition that she believes are responsible for that crisis beginning with Genesis and extending through modern science

[The Beyond Time and Space Man](#) Carol Johnson,The Barn Church Fellowship,2020-08-13 When the great Creator God made Earth and all it contains He looked at His workmanship and was very pleased The crowning glory of His creative works was the man and woman He had made in His image to love and fellowship with a human family to enjoy for all eternity He placed them in a beautiful garden home and came to fellowship with them as friends But it all went wrong when the man and his wife were persuaded to rebel by a once majestic but now fallen angel called Satan against the one rule they were given to live by As a consequence they and their earthen home fell under a curse and they became vulnerable to Satan s schemes Death and disease entered into God s perfect world

A huge gulf of rebellion and wicked deeds an impassable chasm of iniquity now stretches out so far between God and humanity that people can no longer see hear or understand God their Maker Some even say there is no God What could be done about it Would humanity now be doomed lost forever even though God still loved them and had pity on them Born into a world which still testifies of the wonders of the Master Craftsman how could people raise themselves out of the pit into which each and every individual was naturally born How could humanity ever become holy and perfect again clean and pure fit to stand before God s great Judgement Throne and not be found wanting God had already prepared a fiery pit for angelic rebels but He had never intended for humanity to end up in it How was God who is holy above all else going to satisfy His demand for truth and justice while also showing His mercy and love for the fallen human race God devised a simple plan to rescue His lost children It unfolded down through many centuries each piece being carefully put into place generation by generation It has now been revealed to us fully in this age the last age of life upon Planet Earth as we know it Find out the true story of the love loss and redemption of God s beloved human family through the works of His Son Jesus Christ the man who came from beyond time and space to become the Saviour of humanity and Redeemer of Planet Earth **Celestial Heirs** Lee Gladden, Vivianne Gladden, 2018-06-18 Celestial Heirs challenges orthodox religious and scientific thinking of the past with a bold revolutionary reinterpretation of the Bible in light of the extraterrestrial hypothesis It reconciles ancient antagonisms between science and religion and reaffirms the Bible s promise of a dazzling future for humanity and planet Earth
