The Glass Bees Ernst Jünger, 1960 A disconcerting vision of the future Zapparoni a brilliant businessman has turned his advanced understanding of technology and strategic command of the information and entertainment industries into a discrete and seemingly benign form of global domination But Zapparoni needs a chief of security and Richard a veteran and war hero who has fallen on hard times is ready But when Richard arrives at the beautiful country compound that is Zapparoni s headquarters he finds himself subjected to an unexpected ordeal one for which nothing he has ever known has prepared him Soon he is led to question his past his character and even his senses In a world of mechanical bees which extract nectar so efficiently that they destroy the botanical life cycle Richard struggles to maintain his moral equilibrium

The Sensorium of the Drone and Communities Kathrin Maurer, 2023-10-03 A comprehensive overview of how civilian drones sense the world and how they build the aesthetic imaginaries of our communities Drone technology has garnered critical attention across many fields from

engineering to the humanities While the first wave of drone scholarship was key in initiating the debate on drones it also privileged the idea of the scopic regime a militarized regime of hypervisuality in its analyses of the connection between vision and power The Sensorium of the Drone and Communities broadens the drone s spectrum of perception by acknowledging its creative life affirming possibility with the notion of the sensorium The sensorium of the drone is a multimedia synesthetic sensing assemblage in which the human agent is enmeshed with the drone Drone sensoria can sense in many more ways than the scopic regime with sound touch smell temperature and movement In The Sensorium of the Drone and Communities Kathrin Maurer shows how drone sensoria can change our understanding of human communities by constructing imaginaries of social communities based on decentralized and fluid sensing processes Maurer takes an aesthetic approach to technology working with two understandings of aesthetics One understanding refers to aesthetics as a way of experiencing and it explores how the drone human assemblage perceives the world The other refers to aesthetic mimetic representation and focuses on how aesthetic drone imaginaries in literature popular culture visual arts and films negotiate the sensorial technology of the drone Bringing together key ideas in technology studies studies of aerial views visual and aesthetic studies posthuman sensing machine human interaction and communities The Sensorium of the Drone and Communities sheds a welcome and necessary light on this technology s creative potential as well as its dangers and risks **The Glass**
