Formal Object Oriented Specification Using Object Z:

Formal Object-oriented Specification Using Object-Z Roger Duke,Gordon Rose,2000 This text presents techniques for the precise description of software or systems using the object oriented formal specification language Object Z It includes numerous and varied case studies to illustrate the techniques and language of object oriented formal specification and illustrates the key role of formal specification in formal verification and in implementation Although primarily intended for safety critical or complex software development formal specification also has wide application in hardware or general system description   The Object-Z Specification Language Graeme Smith,2012-12-06 Object Z is an object oriented extension of the formal specification language Z It adds to Z notions of classes and objects and inheritance and polymorphism By extending Z s semantic basis it enables the specification of systems as collections of independent objects in which self and mutual referencing are possible The Object Z Specification Language presents a comprehensive description of Object Z including discussions of semantic issues definitions of all language constructs type rules and other rules of usage specification guidelines and a full concrete syntax It will enable you to confidently construct Object Z specifications and is intended as a reference manual to keep by your side as you use and learn to use Object Z The Object Z Specification Language is suitable as a textbook or as a secondary text for a graduate level course and as a reference for researchers and practitioners in industry   **Refinement in Z and Object-Z** John Derrick,Eerke A. Boiten,2012-12-06 Refinement is one of the cornerstones of the formal approach to software engineering and its use in various domains has led to research on new applications and generalisation This book brings together this important research in one volume with the addition of examples drawn from different application areas It covers four main themes data refinement and its application to Z generalisations of refinement that change the interface and atomicity of operations refinement in Object Z and modelling state and behaviour by combining Object Z with CSP Refinement in Z and Object Z Foundations and Advanced Applications provides an invaluable overview of recent research for academic and industrial researchers lecturers teaching formal specification and development industrial practitioners using formal methods in their work and postgraduate and advanced undergraduate students   **Formal Specification and Documentation Using Z** Jonathan Peter Bowen,1996

ZUM ... the Z Formal Specification Notation ,1998   *6th Refinement Workshop* David Till,2012-12-06 The Sixth Refinement Workshop took place at City University in London from 5th to 7th January 1994 The present volume includes all of the papers which were submitted and accepted for presentation together with two papers by invited speakers The workshops in the series have generally occurred at one year intervals but in this last case a two year period had elapsed These workshops have established themselves as an important event in the calendar for all those who are interested in progress in the underlying theory of refinement and in the take up by industry of the methods supported by that theory One of the proposed themes of the sixth workshop was the reporting of successful adoption in industry of rigorous software development methods The programme committee was perhaps slightly disappointed by the response from industry to the call in this respect However the recent period could be characterised as one of consolidation when those companies which have made the decision that formal development methods are important to their business have been adopting them where appropriate and finding them to be worthwhile On the other hand the difficult economic climate which exists in most parts of the developed world is perhaps not the context within which companies still dubious about the benefits are goil g to opt for making major changes in their working practices   *Z User Workshop, London 1992* J.P.
