## **Greek Magic:**

*Magika Hiera* Christopher A. Faraone, Dirk Obbink, 1997 This collection challenges the tendency among scholars of ancient Greece to see magical and religious ritual as mutually exclusive and to ignore magical practices in Greek religion The contributors survey specific bodies of archaeological epigraphical and papyrological evidence for magical practices in the Greek world and in each case determine whether the traditional dichotomy between magic and religion helps in any way to conceptualize the objective features of the evidence examined Contributors include Christopher A Faraone J H M Strubbe H S Versnel Roy Kotansky John Scarborough Samuel Eitrem Fritz Graf John J Winkler Hans Dieter Betz and C R Phillips

*Magic in the Ancient Greek World* Derek Collins, 2008-04-30 Original and comprehensive Magic in the Ancient Greek World takes the reader inside both the social imagination and the ritual reality that made magic possible in ancient Greece Explores the widespread use of spells drugs curse tablets and figurines and the practitioners of magic in the ancient world Uncovers how magic worked Was it down to mere superstition Did the subject need to believe in order for it to have an effect Focuses on detailed case studies of individual types of magic Examines the central role of magic in Greek life

*Greek Magic* John Petropoulos, 2008-06-12 Greek Magic presents a well illustrated introduction to the often neglected aspect of the Ancient Greeks legacy to western culture numerous magical beliefs practices and figures like the medieval and modern witch and warlock

**Ancient Greek Love Magic** Christopher A. FARAONE, Christopher A Faraone, 2009-06-30 The ancient Greeks commonly resorted to magic spells to attract and keep lovers as numerous allusions in Greek literature and recently discovered voodoo dolls magical papyri gemstones and curse tablets attest Surveying and analyzing these various texts and artifacts Christopher Faraone reveals that gender is the crucial factor in understanding love spells There are he argues two distinct types of love magic the curselike charms used primarily by men to torture unwilling women with fiery and maddening passion until they surrender sexually and the binding spells and debilitating potions generally used by women to sedate angry or philandering husbands and make them more affectionate Faraone s lucid analysis of these spells also yields a number of insights about the construction of gender in antiquity for example the femininity of socially inferior males and the maleness of autonomous prostitutes Most significantly his findings challenge the widespread modern view that all Greek men considered women to be naturally lascivious Faraone reveals the existence of an alternate male understanding of the female as naturally moderate and chaste who uses love magic to pacify and control the naturally angry and passionate male This fascinating study of magical practices and their implications for perceptions of male and female sexuality offers an unusual look at ancient Greek religion and society

[The Languages of Magic](#) Toby Chappell, 2025-04-08 Introduces key ideas in linguistics and semiotics to reveal how magic works Reveals how to apply effective communication techniques to your magical practice Includes case studies of magical schools such as Hermetic magic sigil magic Thelema the Church of Satan Chaos Magic and the Temple of Set In this illuminating and deeply informative guide practicing magician Toby Chappell

takes readers on a journey into the heart of what it means to transform reality by exploring what magic is. He explains that operative magic works because it is communication. The practitioner of magic is communicating with the unmanifest to align the outside world with their inner transformations, desires, and needs. Drawing on linguistics and the analytical techniques of semiotics, the author explores how we perceive and affect the world by treating it like a partner in communication. He shows how this notion of magical communication appears in ancient practice, looking specifically at Hermetic magic and the spells of Greek magical papyri, sigil magic, Enochian magic, and runes. He explains the symbol building necessary to effectively transform your inner and outer reality with magical speech, signs, and sigils. The author examines the languages of magic in modern New Thought practices and he also looks at magical communication in several modern and postmodern schools of magic, including Thelema and the teachings of Aleister Crowley, The Temple of Psychick Youth, the Church of Satan, Chaos Magic, and the Temple of Set. Revealing how to apply techniques of effective communication to the magical realm, the author allows you to deepen your understanding of magical practice and ultimately perform magic with greater success.

**A Kind of Magic** Michael Labahn, L. J. Lietaert Peerbolte, 2007-01-01. This collection explores the importance of magic within Early Christianity. Prayer, Magic, and the Stars in the Ancient and Late Antique World Scott Noegel, Joel Walker, 2010-11-01. In the religious systems of ancient Mesopotamia, Egypt, and the Mediterranean, gods and demigods were neither abstract nor distant but communicated with mankind through signs and active intervention. Men and women were thus eager to interpret, appeal to, and even control the gods and their agents. In Prayer, Magic, and the Stars in the Ancient and Late Antique World, a distinguished array of scholars explores the many ways in which people in the ancient world sought to gain access to, or in some cases to bind or escape from, the divine powers of heaven and earth. Grounded in a variety of disciplines, including Assyriology, Classics, and early Islamic history, the fifteen essays in this volume cover a broad geographic area: Greece, Egypt, Syria, Palestine, Mesopotamia, and Persia. Topics include celestial divination in early Mesopotamia, the civic festivals of classical Athens, and Christian magical papyri from Coptic Egypt. Moving forward to Late Antiquity, we see how Judaism, Christianity, and Islam each incorporated many aspects of ancient Near Eastern and Graeco-Roman religion into their own prayers, rituals, and conceptions. Even if they no longer conceived of the sun, moon, and the stars as eternal or divine, Christians, Jews, and Muslims often continued to study the movements of the heavens as a map on which divine power could be read. The reader already familiar with studies of ancient religion will find in Prayer, Magic, and the Stars both old friends and new faces. Contributors include Gideon Bohak, Nicola Denzey Jacco Dieleman, Radcliffe Edmonds, Marvin Meyer, Michael G. Morony, Ian Moyer, Francesca Rochberg, Jonathan Z. Smith, Mark S. Smith, Peter Struck, Michael Swartz, and Kasia Szpakowska. Published as part of Penn State's Magic in History series, Prayer, Magic, and the Stars appears at a time of renewed interest in divination and occult practices in the ancient world. It will interest a wide audience in the field of comparative religion, as well as students of the ancient world and late antiquity.

Lindsay C. Watson, 2019-05-02 Parting company with the trend in recent scholarship to treat the subject in abstract highly theoretical terms *Magic in Ancient Greece and Rome* proposes that the magic working of antiquity was in reality a highly pragmatic business with very clearly formulated aims often of an exceedingly malignant kind In seven chapters each addressed to an important arm of Greco Roman magic the volume discusses the history of the rediscovery and publication of the so called Greek Magical Papyri a key source for our understanding of ancient magic the startling violence of ancient erotic spells and the use of these by women as well as men the alteration in the landscape of defixio curse tablet studies by major new finds and the confirmation these provide that the frequently lethal intent of such tablets must not be downplayed the use of herbs in magic considered from numerous perspectives but with an especial focus on the bizarre seeming rituals and protocols attendant upon their collection the employment of animals in magic the factors determining the choice of animal the uses to which they were put and the procuring and storage of animal parts conceivably in a sorcerer s workshop the witch as a literary construct the clear homologies between the magical procedures of fictional witches and those documented for real spells the gendering of the witch figure and the reductive presentation of sorceresses as old risible and ineffectual the issue of whether ancient magicians practised human sacrifice and the illuminating parallels between such accusations and late 20th century accounts of child murder in the context of perverted Satanic rituals By challenging a number of orthodoxies and opening up some underexamined aspects of the subject this wide ranging study stakes out important new territory in the field of magical studies
