Superintendent of Public Instruction ,1917 **Official Textbook Adoption List** ,1977 Secondary Textbook Review
,1988 This book is intended as a resource for teachers and curriculum developers who select textbooks for secondary English
courses It includes a compilation of 32 factual textbook reviews obtained from the application of a review instrument which
was based on the California Model Curriculum Standards Grades Nine through Twelve English Language Arts and the
English Language Arts Framework for California Public Schools Kindergarten through Grade Twelve The instrument
described in the book was applied to selected English composition grammar and reading literature textbooks The book
suggests that the resulting reviews can be used by teachers as a screening device to reduce the number of books they review
and pilot studies they conduct thus educators will have more time to do in depth reviews of two or three textbooks which
appear to match their course requirements and their students academic needs The book also states that the review
instrument can be adapted by districts to reflect their own English objectives and test results Every review in the book
includes two parts and a publisher s description which appears in the Appendix a section which depicts the extent to which
the emphasis on content and process is given to each of the topics in the textbooks reviewed and a section which includes
topics on content and processes which might be found only in teachers editions The book does not make assessments
regarding the quality of the books reviewed but rather provides information which teachers may find useful in making quality
judgments and selecting specific textbooks for English programs SR Virginia School Report ... Biennial Report [etc.]
