The Well-Trained Mind Susan Wise Bauer, Jessie Wise, 2016-08-09 Is your child getting lost in the system becoming bored losing his or her natural eagerness to learn If so it may be time to take charge of your child's education by doing it yourself The Well Trained Mind will instruct you step by step on how to give your child an academically rigorous comprehensive education from preschool through high school one that will train him or her to read to think to understand to be well rounded and curious about learning Veteran home educators Susan Wise Bauer and Jessie Wise outline the classical pattern of education called the trivium which organizes learning around the maturing capacity of the child's mind and comprises three stages the elementary school grammar stage when the building blocks of information are absorbed through memorization and rules the middle school logic stage in which the student begins to think more analytically and the high school rhetoric stage where the student learns to write and speak with force and originality Using this theory as your model you'll be able to instruct your child whether full time or as a supplement to classroom education in all levels of reading writing history geography mathematics science foreign languages rhetoric logic art and music regardless of your own aptitude in those subjects Thousands of parents and teachers have already used the detailed book lists and methods described in The Well Trained Mind to create a truly superior education for the children in their care This extensively revised fourth edition contains completely updated curricula and book lists links to an entirely new set of online resources new material on teaching children with learning challenges cutting edge math and sciences

recommendations answers to common questions about home education and advice on practical matters such as standardized testing working with your local school board designing a high school program preparing transcripts and applying to colleges You do have control over what and how your child learns The Well Trained Mind will give you the tools you ll need to teach your child with confidence and success

Science, Time and Space in the Late Nineteenth-Century Periodical Press James Mussell,2017-05-15 James Mussell reads nineteenth century scientific debates in light of recent theoretical discussions of scientific writing to propose a new methodology for understanding the periodical press in terms of its movements in time and space That there is no disjunction between text and object is already recognized in science studies Mussell argues however this principle should also be extended to our understanding of print culture within its cultural context He provides historical accounts of scientific controversy documents references to time and space in the periodical press and follows magazines and journals as they circulate through society to shed new light on the dissemination and distribution of periodicals authorship and textual authority and the role of mediation in material culture Well known writers like H G Wells and Arthur Conan Doyle are discovered in new contexts while other authors publishers editors and scientists are discussed for the first time Mussell is persuasive in showing how his methodology increases our understanding of the process of transformation and translation that underpins the production of print and informs current debates about the status of digital publication and the preservation of archival material in electronic forms Adding to the book s usefulness are an extended bibliography and a discussion of recent debates regarding digital publication
