Grand Central Winter Lee Stringer, 1998-07-14 A New York Times Notable Book Whether Lee Stringer is describing God's corner as he calls 42nd Street or his friend Suzy a hooker and past due tourist whose infant child he sometimes babysits whether he is recounting his experiences at Street News where he began hawking the newspaper for a living wage then wrote articles and served for a time as muckraking senior editor whether it is his adventures in New York's infamous Tombs jail or performing community service or sleeping in the tunnels below Grand Central Station by night and collecting cans by day this is a book rich with small acts of kindness humor and even heroism alongside the expected violence and desperation of life on the street There is always room Stringer writes amid the costume jewel glitter for one more diamond in the rough Two events rise over Grand Central Winter like sentinels Stringer's discovery of crack cocaine and his catching the writing bug Between these two very different yet oddly similar activities Lee's life unwound itself during the 1980s and took the shape of an odyssey an epic struggle to find meaning and happiness in arid times He eventually beat the first addiction with help from a treatment program The second addiction writing has hold of him still Among the many accomplishments of this book is that Stringer is able to convey something of the vitality and complexity of a down and out life The reader walks away from it humming its melody one that is more wise than despairing less about the shame we feel when confronted with a picture of those less fortunate and more about the joy we feel when we experience our shared humanity

Sleepaway School Lee Stringer, 2011-01-04 Like his brother before him Stringer was surrendered to foster care shortly after birth by his unwed and underemployed mother a common practice for unmarried women in mid century America Less common was that she returned six years later to reclaim her children Rather than leading to a happy ending though this is where Stringer's story begins The clash of being poor and black in an affluent largely white New York suburb begins to foment pain and rage which erupts more often than not when he is at school One violent episode results in his expulsion from the sixth grade and his subsequent three year stint at Hawthorne the sleepaway school of the title What follows is an intensely personal American journey a universal story of childhood where childhood universals are absent We experience how a child fashions his life out of the materials given to him however threadbare This is a boy meets world story the chronicle of one child's struggle simply to be
