## **General Dima:**

The Case of the General's Thumb Andrey Kurkov, 2012-02-21 John Le Carr meets Mikhail Bulgakov in this international crime thriller by the author of the acclaimed *Death and the Penguin*. The corpse of a distinguished general is found attached to an advertising balloon and minus his thumb. Police Lieutenant Viktor Slutsky is sent in to investigate. So too is KGB officer Nik Tsensky. They begin their investigations unbeknownst to each other but quickly find themselves mystified about developments caused by the other. Thus begins a comedy of very dangerous errors as the two crisscross Europe, Russia and the Ukraine, catalysts in a bizarre battle between the Russian and Ukrainian secret services. What ensues is simultaneously hilarious, tragic and suspenseful with a fascinating cast of characters who would seem absurd if they weren't so compelling: a larger than life hitman, a deaf and dumb blonde and a turtle. Then there's the gun that shoots backwards. And as the two faithful investigators find themselves to be pawns in a story of post-Soviet collapse, it becomes as usual in the work of this modern Russian master an inspiring tale of resilience against the dark forces of the day. *The Destiny of Minou Moonshine*

Gita Ralleigh, 2023-07-06 Longlisted for the Branford Boase Award 2024. The story of a Queendom set in an alternate India. A debut rich in fantasy, friendship and faith and an original middle grade adventure that sparkles with storytelling magic. A land that loses its stories loses its way. The beautiful queendom of Moonlally has fallen under a tyrant's rule. Their queen is dead, worship of their goddess the Dark Lady is forbidden and the precious black diamond that protects the city, a rare fragment of fallen star, has gone missing. When fierce orphan girl Minou Moonshine's life is unexpectedly shattered, she joins the ragtag band of rebels the Green Orchids who are plotting to overthrow the General. Armed with a secret and a map, Minou sets off with her friends and a mechanical elephant through the lush jungles of Indica in search of a queen, a goddess and her destiny.

The Philosophy of Car Theft Georgiy Medvedev, 2013-11-26 Two ex-car thieves who used to work successfully in the prime of their youth have been already living on the legit for a long time and have quite a serious business on setting anti-theft devices on business class cars. But once they decide to cast back their mind and do it in an extraordinary way. The fact is that the wife of one of the characters has got her thirtieth birthday the other day. And so the unusual present should be made. They decide to steal her old car and put a new one with a big bow on it and congratulations in front of her house. So they do. It was a real surprise for them when they saw the wife coming back from work on her car as if nothing had happened. Her face didn't express any happiness even at the sight of the new crossover. The friends wonder whose the devil car they have stolen. The wife is a chief in a famous insurance company. And she said that a few hours ago the two foreigners being very distressed for the safety of some Nanotechnologies that they have brought to a very serious Saint Petersburg Scientific Research Institute from the USA for sharing experiences insure them nothing less than for a sum of several million dollars. And moreover she herself saw their car parked next to her as you will appreciate the cars are the same. It has got through to the friends quickly that the whole city police is now searching for them and the thing they are looking for is standing next to

them The friends decide to put the car on some crowded place But the trouble is that the foreigners are indeed the common swindlers and of course they haven't brought any new technologies with them And only the theft of their own case with the aim of getting insurance figures in their plans The story is inspired by true events and you even can find some information about it in the Internet and Mass Media
