different sensing system Your body brain mind has been trained or maybe we should say programmed for the physical realm Anything beyond the physical realm your brain mind does not have the programming Therefore it cannot compute However you are equipped with more than a brain mind mostly unrecognized Every one of us who drives a car for instance has driven several minutes or even an hour and we can't remember the road which we just traveled over Why because we were not there you can't remember a place you haven't been Yes your body was there and your brain mind was driving the car However if a deer happened to appear you came back and took control of the car again So if you were gone away from your car while your brain mind was driving where did you go Read this book and find out www.DuaneTheGreatWriter.info
