Gulf Attack:

The Weapons of Mass Destruction Program of Iraq United States. Congress. Senate. Committee on Armed Services. Subcommittee on Emerging Threats and Capabilities,2002

National Security in Saudi Arabia Anthony H. Cordesman,2005-09-30 With continuing instability in Iraq the threat of a nuclear Iran and the ever present reality of further terrorist attacks within its own borders Saudi Arabia has been forced to make some hard decisions The current structure of the Saudi security apparatus is only one pathway to improved security Economic and demographic threats may well be the hardest hurdles to overcome What has been accomplished since 2001 and what are the real prospects and implications of further reform To what extent should the kingdom continue to rely on the US to protect its interests Cordesman and Obaid argue that it is time to put an end to client and tutorial relations Saudi Arabia must emerge as a true partner This will require the creation of effective Saudi forces for both defense and counterterrorism Saudi Arabia has embarked on a process of political economic and social reforms that reflects a growing understanding by the governing members of the royal family Saudi technocrats and Saudi businessmen that Saudi Arabia must reform and diversify its economy and must create vast numbers of new jobs for its young and growing population There is a similar understanding that economic reform must be combined with some level of political and social reform if Saudi Arabia is to remain stable in the face of change With Gulf security the war on terrorism and the security of some sixty percent of the world s oil reserves at stake the real question is how quickly Saudi Arabia can change and adapt its overall approach to security and how successful it will be in the process

Iranian Weapons of Mass Destruction Adam C. Seitz,Anthony H. Cordesman,2009-09-03 This book provides an in depth examination of the serious security implications that Iran s nuclear program has on a region that is already plagued by insecurity and conflict Iranian Weapons of Mass Destruction The Birth of a Regional Nuclear Arms Race is an expert insider s look at Iran s current and potential ability to wage both conventional and asymmetrical warfare and the options available for dealing with a nuclear Iran Are we on the brink of a regional nuclear arms race in the Middle East In this urgent volume Anthony Cordesman and Adam Seitz examine how Iran s nuclear ambitions have already altered security policy for the United States Iran s neighbors and the international community Cordesman and Seitz address the full range of issues related to Iran s quest for nuclear weapons including its emphasis on medium and long range missiles the decline of Iran s conventional military capabilities and continued Iranian efforts to undercut the spread of democracy in the region

Missile Inbound Jeffrey L. Levinson,Randy L. Edwards,1997 *Missile Inbound* examines the rules of engagement and how they were changed after the incident as well as the formal inquiry that sought answers to why the Iraqi fighter had been labeled a friend by the American AWACS overhead and why the Stark s defense systems never warned that missiles had been fired

America's First Clash with Iran Lee Allen Zatarain,2010-11-22 A revealing account of the US conflict with Iran over the Persian Gulf during the Reagan era and the groundwork it set for today s tensions In May 1987 the US frigate Stark was

blown apart by an Iraqi jet fighter in the Persian Gulf jumpstarting a major conflict with Iran that came to be known as the Tanker War In America s First Clash with Iran author Lee Allen Zatarain employs Pentagon documents and firsthand interviews to reveal the full story of a conflict that may have presaged further battles to come At the climax of the Iran Iraq War Iran was losing on the battlefield Ayatollah Khomeini decided to close the Persian Gulf against shipping from Iraq s oil rich backer the emirate of Kuwait When the United States sent a fleet to the Gulf raising the Stars and Stripes over Kuwait s commercial tankers a tinderbox was set off The Iranians laid mines throughout the narrow passage and launched attack boats against both tankers and US warships The US Navy fought its largest surface battle since World War II against the Ayatollah s assault boats As Saddam Hussein looked on Iranian gunners fired missiles against US forces actions which if made known at the time would have required the US Congress to declare war against Iran

The Military Balance in the Middle East Anthony H. Cordesman,2004-09-30 Noted Middle East military expert Anthony H Cordesman details the complex trends that come into play in determining the military balance in a region that has become so critical to world peace This ready resource provides a wealth of information on military expenditures and major arms systems as well as qualitative trends by country and by zone However as Cordesman stresses because the greater Middle East is more a matter of rhetoric than military reality mere data summarizing trends in 23 different countries is no substitute for a substantive explanation Using tables graphs and charts this study explores every aspect of the regional military balance with attention to sub regional balances internal civil conflicts and low level border tensions The Middle East is certainly one of the most militarized areas in the world and changes in technology access to weapons of mass destruction and political instability contribute to a situation that has long been in constant flux Some of the regional flashpoints covered in this study include the Maghreb North Africa the Arab Israeli conflict dominated by Israel versus Syria and the Gulf divided into those states that view Iran as the primary threat and those who lived in fear of Iraq Internal conflicts such as those in Mauritania Algeria Libya Egypt Sudan Bahrain Saudi Arabia Iraq and Yemen increasingly dominate regional tensions In addition border conflicts within the region and with neighboring countries could further aggravate the delicate balance
