First Introduction To Existential Phenomenon:

A First Introduction to Existential Phenomenology Wilhelmus Antonius M. Luijpen, William A. Luijpen, Henry J. Koren, 1967 [A First Introduction to Existential Phenomenology](#) Henry J. Koren, 1969 [Heidegger and the Problem of Phenomena](#) Fredrik Westerlund, 2020-02-20 This book offers a broad critical study of Heidegger's lifelong effort to come to terms with the problem of phenomena and the nature of phenomenology How do we experience beings as meaningful phenomena What does it mean to phenomenologically describe and explicate our experience of phenomena The book is a chronological investigation of how Heidegger's struggle with the problem of phenomena unfolds during the main stages of his philosophical development from the early Freiburg lecture courses 1919-1923 over the Marburg period and the publication of *Being and Time* in 1927 up to his later thinking stretching from the 1930s to the early 1970s A central theme of the book is the tension between on the one hand Heidegger's effort to elaborate Husserl's phenomenological approach by applying it to our pre-theoretical experience of existentially charged phenomena and on the other hand his drive towards a radically historicist form of thinking Heidegger's main critical engagements with Husserl are examined and assessed along the way Besides offering a new comprehensive interpretation of Heidegger's philosophical development the book critically examines the philosophical power and problems of Heidegger's successive attempts to account for the structure of phenomena and the possibility of phenomenology In particular it develops a critique of Heidegger's radical historicism arguing that it ultimately makes Heidegger unable to account either for the truth of our understanding or for the ethical-existential significance of other persons The book also contains a chapter which probes the philosophical commitments that motivate Heidegger's political engagement in National Socialism *Unamuno, Berdyaev, Marcel* C. A. Longhurst, 2021-10-01 This book seeks to examine the mutual interplay between existentialism and Christian belief as seen through the work of three existentialist thinkers who were also committed Christians a Spaniard Miguel de Unamuno a Russian Nikolai Berdyaev and a Frenchman Gabriel Marcel They are compared with each other and with leading non-religious existentialists The major themes studied include reason freedom the self belief hope love suffering and immortality

From Hegel to Existentialism Robert C. Solomon, 1987 A collection of the author's articles on key issues in the writings of major European philosophers and thinkers including Hegel Nietzsche Kierkegaard Sartre and Camus [A first introduction to existential phenomenology, by W. A. Luijpen and H. J. Koren](#) Wilhelmus Luijpen, Henry J. Koren, 1969 [Embodied Metaphors in Film, Television, and Video Games](#) Kathrin Fahlenbrach, 2015-10-05 In cognitive research metaphors have been shown to help us imagine complex abstract or invisible ideas concepts or emotions Contributors to this book argue that metaphors occur not only in language but in audio-visual media well This is all the more evident in entertainment media which strategically sell their products by addressing their viewers' immediate reflexive understanding through pictures sounds and language This volume applies cognitive metaphor theory (CMT) to film television and video games in order to

analyze the embodied aesthetics and meanings of those moving images *Heidegger, Translation, and the Task of Thinking*
