Anti-Roman Cryptograms in the New Testament Norman A. Beck, 2010 The first basic thesis of Anti Roman Cryptograms in the New Testament Hidden Transcripts of Hope and Liberation is that the Jesus of history and his earliest and closest followers during his lifetime and during the decades after he had been crucified by the Romans had not only a deep longing for eternal life with God beyond the limits of this world but also a strong desire for liberation from Roman political economic and social oppression The second basic thesis of Anti Roman Cryptograms in the New Testament is that within the Christian Scriptures there are more hidden transcripts coded messages anti Roman cryptograms of hope and liberation for freedom now within this life than we have realized throughout most of the history of interpretation Hidden transcripts of hope and liberation are coded so that

oppressed people are able to communicate to their fellow oppressed people in ways in which their message and their intent are shielded from the perceptions of their oppressors These messages by the Jesus of history and by the writers of New Testament and related literature use the language of faith of salvation of Deity and of adversaries of Deity giving words that are commonly used by the oppressed people new and double meanings Within interaction with other scholars who are publishing studies of hidden transcripts this book is an analysis of hidden transcripts within each of the New Testament documents The book is designed to be used in New Testament Studies courses at undergraduate and or graduate levels by study groups and by all persons who desire a more adequate understanding of the Jesus of history his closest followers and their oral and written communications during the first three centuries C E **"It is the Spirit that Gives Life"** Gitte Buch-Hansen,2010-05-27 Since Origen and Chrysostom John s Gospel has been valued as the most spiritual among the New Testament writings Although Origen recognizes the Stoic character of John s statement that God is pneuma 4 24 an examination of the gospel in light of Stoic physics has not yet been carried out Combining her insight into Stoic physics and ancient physiology the author situates her thesis in the major discussions of modern Johannine scholarship e g the role of the Baptist and the function of the Johannine signs and demonstrates new solutions to well known problems The Stoic study of the Fourth Gospel reveals a coherent narrative tied together by the spirit The problem with which John s Gospel wrestles is not the identity of Jesus but the transition from the Son of God to the next generation of divinely begotten children how did it come about A reading carried out from a Stoic perspective points to the translation of the risen body of Jesus into spirit as the decisive event The provision of the spirit is a precondition of the divine generation of believers Both events are explained by Stoic theory which allows of a transformation of fleshly elements into pneuma and of multiple fatherhood In fact in his Commentary on John Origen described Jesus ascension as an event of *anastoixei sis* which is the Stoic term for the transformation of heavily elements into lighter and pneumatic ones *The Lamb Christology of the Apocalypse of John* Loren L. Johns,2003 What did Lamb symbolize in the ancient near Eastern world What did it convey to the first century audience of the Revelation And why did the author use this symbol Loren J Johns analyzes the symbolic meaning of *apviov* in the Apocalypse of John as the Central feature of the Christology of Revelation *The Great Cryptogram* Ignatius Donnelly,1888 *Handbook of Biblical Criticism, Fourth Edition* Richard N.
