Gotha P 60:

Gotha P Sixty David Myhra,2001 A detailed look at the aircraft proposed by Gotha to replace the Horten Ho 229 which had already been selected for series production by the RLM Includes a comparison of the two aircraft as well as firsthand interviews with those involved in the program **Secret Projects of the Luftwaffe - Vol 1 - Jet Fighters 1939 -1945** Dan Sharp,2020-09-22 Germany s air ministry was quick to grasp the potential of the jet engine as early as 1938 and by 1939 several German aircraft manufacturers were already working on fighter designs that would utilize this new form of propulsion Rocket engines too were seen as the way of the future and companies were commissioned to design fighters around them As the Second World War began the urgent need to bring these advanced new types into production saw a host of innovative aircraft designs being produced which would eventually result in Messerschmitt s Me 262 jet fighter and the Me 163 rocket propelled interceptor And as the war progressed efforts were increasingly made to find better ways of utilizing jet rocket and latterly ramjet engines in fighter aircraft Aviation companies from across Germany set their finest minds to the task and produced some of the most radical aircraft designs the world had ever seen They proposed rotating wing ramjet fighters arrowhead shaped rammers rocket firing bat winged gun platforms sleek speed machines tailless flying wings tiny mini fighters and a host of others ranging from deadly looking advanced fighters to downright dangerous vertical launch interceptors **Secret Projects of the Luftwaffe Volume 1 Jet Fighters 1939 1945** by Dan Sharp based on original research using German wartime documents offers the most complete and authoritative account yet of these fascinating designs through previously unseen photographs illustrations and period documentation from archives around the world

Aircraft of the Luftwaffe, 1935-1945 Jean-Denis G.G. Lepage,2009-03-23 One of the most significant innovations in modern warfare has been the appearance and development of air power a technology which demanded technical and financial investment on a whole new scale and which ultimately changed the fundamental nature of war itself This book covers the history and development of the German air force from 1935 to 1945 with descriptions and illustrations of almost all of the Luftwaffe s airplanes including fighters jet fighters dive bombers ground attackers medium and heavy bombers jet bombers seaplanes flying boats and carrier planes transport and gliders reconnaissance and training aircrafts helicopters and many futuristic projects and other rarities **Conversations With: Reimar Horten-Volume 3** David Myhra,2016-06-05 In the winter of 1982 the author Dr David Myhra boarded an evening flight to Cordoba Argentina to interview one the most forward thinking and original aircraft designers in German aviation Upon arriving Dr Myhra retrieved his bags containing a cassette recorder and 100 2 hour cassettes among his personal effects and exited the terminal After a short time a white half ton short bed Ford pick up pulled up Inside was Reimar Horten Reimar was one of the 2 people Dr Myhra has met that has the gift of total recall Contained in these pages are direct transcripts of the conversations shared by Dr Myhra and Reimar Horten close to 400 pages Volume 4 contains an exclusive sneak preview of the next ebook by David Myhra **The Day the**

Horten Ho 229 Jumo 004B Powered All Wing Project Died **Mafia Life** Federico Varese,2017-06-29 We see mafias as vast powerful organisations harvesting billions of dollars across the globe and wrapping its tentacles around everything from governance to finance But is this the truth Travelling from mafia initiation ceremonies in far flung Russian cities to elite gambling clubs in downtown Macau Federico Varese sets off in search of answers Using wiretapped conversations interviews and previously unpublished police records he builds up a picture of the real men and women caught up in mafia life showing their loves and fears ambitions and disappointments as well as their crimes Mafia Life takes us into the real world of organised crime where mafia henchmen worry about their bad managers and have high blood pressure assassinations are bungled as often as they come off and increasing pressure from law enforcement means that a life of crime is no longer lived in the lap of luxury As our world changes so must the mafia Globalisation migration and technology are disrupting their traditions and threatening their revenue streams and the mafiosi must evolve or die Mafia Life is an intense and totally compelling look at an organisation and the daily life of its members as it gets to grips with the modern world Out now in paperback **Secret Wings of World War II** Lance Cole,2015-06-30 There are many myths and legends surrounding the advanced German aeronautical technology of the Second World War There are also facts and proven events Yet within these stories and behind these facts lie conspiracy theories mistaken assumptions and denials that seem to contradict the evidence So what really happened How far ahead were the German scientists And of even greater interest why and how There have been other books about advanced German wartime aeronautics yet few authors have fully examined the detail of the designs and their relevance to the fighter and bomber legends of the 1950s and 60s let alone the current crop of military and civil all wing or blended wing aircraft This book charts the story from its origins through current day innovations and beyond into the all wing future of tomorrow
