Gothic America:

Gothic America Teresa A. Goddu, 1997 Goddu traces the development of the female southern and African American gothic in literature between the Revolutionary and Civil Wars placing in a new historical context Poe's *The Narrative of Arthur Gordon Pym* Hawthorne's *The Blithedale Romance* Alcott's ghost stories and Jacobs's *Incidents in the Life of a Slave Girl*

The American Imperial Gothic Johan Höglund, 2016-03-16 The imagination of the early twenty first century is catastrophic with Hollywood blockbusters novels computer games popular music art and even political speeches all depicting a world consumed by vampires zombies meteors aliens from outer space disease crazed terrorists and mad scientists These frequently gothic descriptions of the apocalypse not only commodify fear itself they articulate and even help produce imperialism Building on and often retelling the British imperial gothic of the late nineteenth century the American imperial gothic is obsessed with race gender degeneration and invasion with the destruction of society the collapse of modernity and the disintegration of capitalism Drawing on a rich array of texts from a long history of the gothic this book contends that the doom faced by the world in popular culture is related to the current global instability renegotiation of worldwide power and the American bid for hegemony that goes back to the beginning of the Republic and which have given shape to the first decade of the millennium From the frontier gothic of Charles Brockden Brown's *Edgar Huntly* to the apocalyptic torture porn of Eli Roth's *Hostel* the American imperial gothic dramatises the desires and anxieties of empire Revealing the ways in which images of destruction and social upheaval both query the violence with which the US has asserted itself locally and globally and feed the longing for stable imperial structures this book will be of interest to scholars and students of popular culture cultural and media studies literary and visual studies and sociology

The Poetics and Politics of the American Gothic Agnieszka Soltysik Monnet, 2016-12-05 Taking as its point of departure recent insights about the performative nature of genre *The Poetics and Politics of the American Gothic* challenges the critical tendency to accept at face value that gothic literature is mainly about fear Instead Agnieszka Soltysik Monnet argues that the American Gothic and gothic literature in general is also about judgment how to judge and what happens when judgment is confronted with situations that defy its limits Poe Hawthorne Melville Gilman and James all shared a concern with the political and ideological debates of their time but tended to approach these debates indirectly Thus Monnet suggests while slavery and race are not the explicit subject matter of antebellum works by Poe and Hawthorne they nevertheless permeate it through suggestive analogies and tacit references Similarly Melville Gilman and James use the gothic to explore the categories of gender and sexuality that were being renegotiated during the latter half of the century Focusing on *The Fall of the House of Usher* *The Marble Faun* *Pierre* *The Turn of the Screw* and *The Yellow Wallpaper* Monnet brings to bear minor texts by the same authors that further enrich her innovative readings of these canonical works At the same time her study persuasively argues that the Gothic's endurance and ubiquity are in large part related to its being uniquely adapted to rehearse questions about judgment and justice that

Robert K. Martin, 1998-06 In America as in Britain the rise of the Gothic represented the other the fearful shadows cast upon Enlightenment philosophies of common sense democratic positivism and optimistic futurity Many critics have recognized the centrality of these shadows to American culture and self identification American Gothic however remaps the field by offering a series of revisionist essays associated with a common theme the range and variety of Gothic manifestations in high and popular art from the roots of American culture to the present The thirteen essayists approach the persistence of the Gothic in American culture by providing a composite of interventions that focus on specific issues the histories of gender and race the cultures of cities and scandals and sensations in order to advance distinct theoretical paradigms Each essay sustains a connection between a particular theoretical field and a central problem in the Gothic tradition Drawing widely on

contemporary theory particularly revisionist views of Freud such as those offered by Lacan and Kristeva this volume ranges from the well known Gothic horrors of Edgar Allan Poe and Nathaniel Hawthorne to the popular fantasies of Stephen King and the postmodern visions of Kathy Acker Special attention is paid to the issues of slavery and race in both black and white texts including those by Ralph Ellison and William Faulkner In the view of the editors and contributors the Gothic is not so much a historical category as a mode of thought haunted by history a part of suburban life and the lifeblood of films such as *The Exorcist* and *Fatal Attraction*
