Eva Hesse Lucy R. Lippard, 1992-08-21 As Lippard points out Hesse's use of obsessive repetition in her works served to increase and exaggerate the absurdity she saw in her life In many ways her works were psychic models as Robert Rauschenberg has said of a very interior person In pioneering the use of soft materials her sculptures betrayed her awareness of the manner in which her experience as a woman altered her art and career Although she died before feminism affected the art world to any great extent her major works have since become talismans for succeeding generations of women artists Eva Hesse was designed by Hesse's friends and colleagues Sol LeWitt and Pat Steir her sculptures drawings and paintings are reproduced and discussed and the text includes numerous quotations from her diaries First published in 1976 but long out of print this classic text is both an insightful critical analysis and a tribute to an artist whose genius has become increasingly apparent with the passage of time
