Frederick Parkes Weber

Espaaa Negra:

Vistas de España Mary Elizabeth Boone, 2007-01-01 In the decades following the American Civil War and leading up to the First World War a definitive shift in power took place between Spain and the United States This original book explores American artists perceptions of Spain during this period of turmoil and demonstrates how their responses to Spanish art helped to answer emerging complex questions about American national identity M Elizabeth Boone focuses on works by Thomas Eakins Mary Cassatt William Merritt Chase John Singer Sargent Robert Henri and other American artists who traveled to Spain to study the achievements of such great masters as Murillo Vel zquez and Goya The resulting American paintings some well known and others now largely forgotten provide intriguing insights not only into the 19th century American struggle to define itself as an imperial power but also into the relations between the United States and the Spanish speaking world today

La España negra José Gutiérrez-Solana, 1920 Describes the painter s travels through Spain La Espa a Negra is not a portrait of a past happily overcome but an altarpiece that reflects the deepest layers of a nation reluctant to modernity Solana uses stark and meticulous prose to narrate his travels through Spain In the prologue he describes himself as a dead man with wide soul eyes His journey through different cities and regions is not a simple geographical itinerary but an interior journey that does not shy away from dark areas where reason fights with instinct Black Spain exudes the pessimism and melancholy of the generation of 1898
