Essay on the Principles of Translation Alexander F T Woodhouselee, 2021-04-14 If it were possible accurately to define or perhaps more properly to describe what is meant by a good Translation it is evident that a considerable progress would be made towards establishing the Rules of the Art for these Rules would flow naturally from that definition or description But there is no subject of criticism where there has been so much difference of opinion If the genius and character of all languages were the same it would be an easy task to translate from one into another nor would anything more be requisite on the part of the translator than fidelity and attention But as the genius and character of languages is confessedly very different it has hence become a common opinion that it is the duty of a translator to attend only to the sense and spirit of his original to make himself perfectly master of his author's ideas and to communicate them in those expressions which he judges to be best suited to convey them *Essay on the principles of translation* Alexander Fraser Tytler
