Essays In European An:

Europe - a Glance Andrea Garbuglia,2007 **Essays in European and Oriental Literature** Lafcadio Hearn,1923

The Idea of Europe George Steiner,2015-03-10 The Idea of Europe finds George Steiner reckoning with Europe from a number of different angles Europe he writes is the place where Goethe s garden almost borders on Buchenwald where the house of Corneille abuts on the market place in which Joan of Arc was hideously done to death It is in other words a continent rich with contradiction whose many tensions cultural social political economic and religious have for centuries conspired to pull it apart even as it has become more and more unified But what lies ahead for a continent whose borders are growing and economic might is strengthening even as its cultural identity recedes A continent where in Steiner s words young Englishmen choose to rank David Beckham high above Shakespeare and Darwin in their list of national treasures This is the trajectory that Steiner explores so brilliantly in The Idea of Europe *Europeans* Åke Daun,Sören Jansson,1999-01-01 Vad betyder det att vara europ En grupp europeiska akademiker ombads att anv nda sina egna personliga perspektiv f r att diskutera det komplexa mnet nationell identitet Detta r speciellt intressant med tanke p att Europa i framtiden kommer att bli n mer integrerat och att samarbete ver gr nserna kommer n mer ing i den sociala och politiska utvecklingen F rfattarna representerar en m ngfald av de varierande kulturella och etniska grupper som bildar det europeiska folket Europeans ger en inblick i en v rld vars m nniskor dras till varandra av politiska och ekonomiska sk l men som fortfarande r bundna till sina historiskt framvuxna kulturer perspektiv p livet och s tt att vara **Europe and Its Others** Paul Gifford,Tessa Hauswedell,2010 The essays represent a selection of papers delivered at an international conference held under the title Europe and its Others Interperceptions Past Present Future at St Andrews University in June 2007 under the aegis of the Institute for European Cultural Identity Studies Introd **A Soul for Europe: An essay collection** Furio Cerutti,Enno Rudolph,2001 After ten and more years of continuous movement toward integration the European Union and its citizens are confronted with the problem of whether or not to take decisive steps towards the establishment of a full fledged common polity This implies a Europe wide debate including the future member states and deliberation process about the values principles an basic policies that the citizens can perceive as common to everybody Whatever its relationship to the diversity of existing national and local identities European identity is about the Union s institutions becoming rooted in the soul of the citizens thus receiving democratic legitimacy and support In these two volumes authors who have a political and intellectual interest in the European process dicuss its unprecedented features as a peaceful and voluntary union of peoples its understandable delays and less acceptable shortcomings The first volume is a reader written in non academic terms it discusses the essential components of an European political identity as far as problems like democracy citizenship social justice war and peace freedom borders are concerned also looking at the history of this identity The second volume is a collection of scientific essays that provide in depth analysis of fundamental aspects of European cultural identity such as

religion art and economic culture myth and civil society The two volumes can be read independently of each other but it can be expected that readers who become acquainted with one will feel stimulated to reach for the other Indians and Europe Christian F. Chips from a German Workshop: Essays chiefly on the science of language. With index to vols. III and IV Friedrich Max Müller, 1876 *Chips from a German Workshop: Essays chiefly on the science of language with index to vols 3 & 4* Friedrich Max Müller, 1876 *European Culture in Diversity* Krystyna Kujawińska Courtney, Evan Williams, 2011-08-08 This collection of articles devoted to Europe was born from the urgent need to present the specificity of European culture both its unity and diversity and at the same time create a stimulating dialogue about European culture and its complexities. European culture, considered as all inherited beliefs and values behind social action, has been treated in the past as a complex phenomenon of superior value as the result of a common past among European nations, the permeation of various cultural elements between cultures, and their absorption in different contexts. In the past, the process of shaping European identity was often fierce and dramatic, influenced by the events taking place within but also outside European borders. Now it has undergone various transformations as a result of new political, economic, and cultural challenges. For this reason, the authors and editors of this volume place emphasis on diachronic perspectives; their approaches often consider local European issues against a global background.
