**Perspectives on Welfare** Alan Deacon, 2002-03-16 Of the several discussions of the American poverty theorists I have read this is easily the best Anyone interested in that debate should begin here Professor Lawrence M Mead New York University a compelling guide to the ideas that have shaped and seek to re shape welfare provision This is a student text that teachers will want to read first Professor Robert Walker University of Nottingham How do welfare benefits and services shape the attitudes behaviour and character of claimants Should entitlement be dependent upon good behaviour What are the major intellectual influences upon current welfare reforms in the UK and the US Is it possible to reform welfare in ways which tackle both social inequality and welfare dependency This lucid and engaging book provides an introduction to the current debates about the future direction of welfare reform on both sides of the Atlantic The first part outlines a range of different perspectives on welfare and shows how each of these perspectives rests upon a different assumption about the role and purpose of welfare policy and a different understanding of human nature and motivation Some of these perspectives see the primary role of welfare as to reduce inequalities while others see the central objective as the reduction of welfare dependency The second part shows how the current debates in Britain and the United States are informed by these perspectives and argues that debates about inequality and dependency are not mutually exclusive but address different dimensions of the same problem In all this illuminating and forward looking text is essential reading for courses in social policy health and social welfare as well as those with a political and wider interest in welfare reform

**Postmodernism and Public Policy** John B. Cobb Jr., 2012-02-01 One of America s preeminent systematic theologians John B Cobb Jr examines a range of social issues in his latest groundbreaking work

Postmodernism and Public Policy Cobb uses a naturalistic postmodern perspective to make constructive proposals about a wide range of topics in the public eye Postmodernism and Public Policy shows how a postmodern Christianity can contribute positively to thinking about religious and cultural pluralism and how this can give direction to the educational enterprise It proposes ways of understanding sex gender and race that take diversity seriously without lapsing into a debilitating relativism that inhibits political action Arguing for a shift from individualism to thinking of persons in community it proposes that the world be organized from the bottom up in communities of communities and spells out what this implies for the political and economic orders and the relationship between them Cobb shows that formulations on all these topics can be coherently interconnected and he develops the implications of such thinking for some specific ethical and political issues that now trouble the United States such as abortion physician assisted suicide and homosexuality

Interpersonal Culture on the Internet Sarah N. Gatson,Amanda Zweerink,2004 Community is a highly contested concept and in the milieu of mass media it is even more highly fraught The book is a community formation narrative adding to our common database of emergent community practice on the Internet The book bolsters our understandings of the substantive processes involved particularly those of boundary formation spatial dimensions of communities and how communities are always both embedded and emerging entities Finally it deals with the question of how seamless and or disruptive the new technology of the Internet is vis a vis our traditional practices of community formation and maintenance We are interested in a problem with communities based in media fandoms Eventually the artist will quit making music the movie will cease to

have sequels or the television show will get cancelled What happens to these communities when their basis of interest goes away Is the bond of community enough to keep them together Why do people fracture into other groups Why do some hold on to the one for all all for one mentality chosen offline or do they stick by the friends they made in the community who would not ordinarily be their type In the last couple of years of working with this community the ways in which one gauges when a community ends and when it merely morphs into some other kind of interpersonal phenomenon have been at the forefront of our research The book is ethnographic in method and deals with community concepts such as networks geography boundaries and politics
