Howden Smith,2017-12 Excerpt from Grey Maiden the Story of a Sword Through the Ages This is the story of the sword Grey Maiden and of a few of the mighty deeds wrought with it in the passage of the centuries Forged in the dim beginnings of time when men first discovered the resiliency Of iron tempered with carbon and made of the knowledge a magic and a mystery it saw the rise of Greece and the crowning of Alexander s fortunes it was witness to the majesty and the decay of Rome it led the rush of Islam It knew the glories and the agonies of the Old World and the birth pangs of the New For gen erations it lay hidden in tomb or burial mound or hung in grim quietude upon the walls of armories Yet often when men turned to war eager hands reached out for it and its shining blade was bright in the van of battle As some mediacval owner scratched in the hard grey steel About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
