Nearly two years on the experiences and trajectories of the pandemic across the world have confirmed that it has been in the grasp of a systemic malaise le mal Everywhere evil is as a viral condition in the etymological sense of a poison and in the media theoretical sense in its uncontrollable spread of a contagion It is time to reevaluate the concept of evil raising it as perhaps the only term through which philosophy can reflect on the pandemic This collection contains responses from moral and political philosophy epistemology and ontology literary studies theology and psychoanalysis It is a collective meditation which takes a plural approach to the sufferings of different parts of the world deploying a stance dedicated to place and specificity Their distinct contributions arise from multiple traditions with voices from within and beyond the western canon The eighteen meditations decline the temptation to isolate the pandemic as a simple great event equal across the globe that it continues to devastate Instead like the witches of Macbeth they come together as a gathering to speak of this state of evil for it is our own condition They explore the hesitating question which yet confesses a terrifying suspicion is it possible to speak of evil in the time of the pandemic *The Jesuit Relations and Allied Documents: Iroquois, Ottawas, Lower Canada: 1669-1671* Jesuits, 1899

Women and War in Antiquity Jacqueline Fabre-Serris, Alison Keith, 2015-12-15 Women in ancient Greece and Rome played a much more active role in battle than previously assumed The martial virtues courage loyalty cunning and strength were central to male identity in the ancient world and antique literature is replete with depictions of men cultivating and exercising these virtues on the battlefield In *Women and War in Antiquity* sixteen scholars reexamine classical sources to uncover the complex but hitherto unexplored relationship between women and war in ancient Greece and Rome They reveal that women played a much more active role in battle than previously assumed embodying martial virtues in both real and mythological combat The essays in the collection taken from the first meeting of the European Research Network on Gender Studies in Antiquity approach the topic from philological historical and material culture perspectives The contributors examine discussions of women and war in works that span the ancient canon from Homer's epics and the major tragedies in Greece to Seneca's stoic writings in first century Rome They consider a vast panorama of scenes in which women are portrayed as spectators critics victims causes and beneficiaries of war This deft volume which ultimately challenges the conventional scholarly opposition of standards of masculinity and femininity will appeal to scholars and students of the
