Informal Logic Wayne Grennan, 1997 Grennan bases his evaluation of arguments on two criteria logical adequacy and pragmatic adequacy He asserts that the common formal logic systems while logically sound are not very useful for evaluating everyday inferences which are almost all deductively invalid as stated Turning to informal logic he points out that while more recent informal logic and critical thinking texts are superior in that their authors recognize the need to evaluate everyday arguments inductively they typically cover only inductive fallacies ignoring the inductively sound patterns frequently used in successful persuasion To redress these problems Grennan introduces a variety of additional inductive patterns Concluding that informal logic texts do not encourage precision in evaluating arguments Grennan proposes a new argument evaluation procedure that expresses judgments of inferential strength in terms of probabilities Based on theories of Stephen Toulmin Roderick Chisholm and John Pollock his proposed system allows for a more precise judgment of the persuasive force of arguments **Fundamentals of Critical Argumentation** Douglas Walton, 2006 Fundamentals of Critical Argumentation presents the basic tools for the identification analysis and evaluation of common arguments for beginners The book teaches by using examples of arguments in dialogues both in the text itself and in the exercises Examples of controversial legal political and ethical arguments are analyzed Illustrating the most common kinds of arguments the book also explains how to analyze and evaluate each kind by critical questioning Douglas Walton shows how arguments can be reasonable under the right dialogue conditions by using critical questions to evaluate them The Cumulative Book Index , 1928 A world list of books in the English language **American Motherhood** Della Thompson Lutes, 1903 Series 6 Kentucky Geological Survey, 1925 The United States Catalog Mary Burnham, Carol Hurd, 1928 *Killing Happy Animals: Explorations in Utilitarian Ethics* Tatjana Višak, 2013-08-23 Is it acceptable to kill an animal that has been granted a pleasant life This book rigorously explores the moral basis of the ideal of animal friendly animal husbandry and sheds new light on utilitarian moral

theory by pointing out the assumptions and implications of two different versions of utilitarianism with surprising conclusions
