## **Feel Good Fun:**

**The Quest to Feel Good** Paul R. Rasmussen, 2011-01-19 Emotions rather than simply being the result of random or disordered biochemical processes are adaptive mechanisms that are often overly relied upon as a function of basic learning processes. The Quest to Feel Good helps the reader understand that negative emotions serve a critical adaptive purpose that functions in relation to one's ultimate desire for a felt positive state. Paul Rasmussen addresses the role of emotions as adaptive components in combination with cognitive and behavioral processes to our overall orchestration of life. To this end, the therapist is directed to use a client's negative affect as a means of guiding critical therapeutic conclusions and decisions. Rasmussen emphasizes an integration of the basic premises of Adlerian psychology with the evolutionary imperative model presented by Theodore Millon (1990, 1999). This integration is used to explain the primacy of emotions in the manifestation of most clinical conditions. This critical integration and focus makes the volume important, necessary, and unique to mental health professionals. Case examples and illustrations are also offered throughout the text.

**How to Make Feeling Good Your Priority** Holly Rouillard Johnson, 2021-02-10 Holly Rouillard Johnson's path to make feeling good a priority manifested in her childhood and high school years. She discovered running, which led her on a twenty-seven time marathon journey starting at age thirty-four. She credits her accomplishments in racing and life to her feel-good mentality, including a proven formula on sustaining a feel-good state for as long as possible, both along marathon courses and life's paths. Throughout the years, her commitment to feeling good led her to coaching and helping others adapt more positive mindsets and helping her heal and overcome injuries and balance the demands of professional and running careers along with family and other interests. It also fueled her courage to deal with adversity as an athlete and in life. This feel-good commitment enables her to embrace every setback as an opportunity to learn, grow, and evolve. Principles and practices she shares in *How to Make Feeling Good Your Priority* shifting the law of attraction in a positive direction. Johnson gives practical advice guiding you in making the right choices and shifting how you approach your day by thinking and focusing on what will make you feel good and happy. Johnson insists you can choose how you want to feel around your kids, your spouse, at work, at the gym, on a run, or simply how you approach each day. When you feel good, the world seems like a better place.
