ABOUT ART

The Feldman Method of art criticism

Robert Rauschenberg

Students can learn to evaluate works of art with this simple method using thoughtful discussion and terms.

Samuel B. Feldman
Emeritus Professor of Art
at University of Florida

1. Description

What can be seen in the artwork? Time to take inventory of what you see.

2. Analysis

What elements / principles are found in the artwork? Choice of materials?

3. Interpretation

What message or meaning do you think the artist is trying to say? Mood / Emotion?

4. Judgement

Evaluate the work based on what you took away from the aesthetic perceptions of description, analysis, & interpretation. Explain why you like it or not.

"I believe teaching revolves around the discussion of aesthetic perceptions." - Samuel B. Feldman

Method evolved during the 1960's and 1970's. What was happening around this time in art? Pop artists were creating art inspired from real life and popular culture.
