English Linguistic Stylistics Jürgen Esser, 1993 **Linguistic stylistics** Nils Erik Enkvist, 2016-11-21 No detailed description available for Linguistic stylistics **Investigating English Style** David Crystal, Derek Davy, 1969 This work is an attempt to provide the reader with a comprehensive introductory to stylistics especially regarding English language stylistics *English Stylistics* Zeki Hamawand, 2023-03-26 This accessible textbook hinges on the central assumptions of Cognitive Linguistics and Cognitive Grammar introducing students to the analytical tools they need to approach Stylistics an essential area in language analysis The author verifies the claim that alterations in style triggered by different cognitive processes reflect alterations in meaning and shows how they are employed to achieve particular effects in context The book links theory with practice aiming both to acquaint students with the cognitive principles that account for stylistic expressions and to provide them with the tools and techniques to conduct their own analyses The textbook explores and explains how writers use the resources of language to create meaning and how readers interpret texts It will be of interest to advanced undergraduate and postgraduate students on courses in English Linguistics as well as those working on other languages and in related areas such as Composition and Creative Writing Routledge Dictionary of Language and Linguistics Hadumod Bussmann, 2006-02-20 The Routledge Dictionary of Language and Linguistics is a unique reference work for students and teachers of linguistics The highly regarded second edition of the Lexikon der Sprachwissenschaft by Hadumod Bussmann has been specifically adapted by a team of over thirty specialist linguists to form the most comprehensive and up to date work of its kind in the English language In over 2 500 entries the Dictionary provides an exhaustive survey of the key terminology and languages of more than 30 subdisciplines of linguistics With its term based approach and emphasis on clear analysis it complements perfectly Routledge s established range of reference material in the field of linguistics *Linguistics and Style* Nils Erik Enkvist, Michael Gregory, 1964 **The Science of Linguistics in the Art of Translation** Joseph L. studies have appeared to drift further apart Leech sets the concept of foregrounding also known as defamiliarization at the heart of the interplay between form and interpretation Through practical and insightful examination of how poems plays and prose works produce special meaning he counteracts the flight from the text that has characterized thinking about language and literature in the last thirty years when the response of the reader rather than the characteristics and meaning potential of the text itself have been given undue prominence The book provides an enlightening analysis of well known as well as less well known texts of great writers of the past including Keats Shelley Samuel Johnson Shaw Dylan Thomas and Virginia Woolf

Linguistic Stylistics Nils Erik Enkvist,1973 No detailed description available for Linguistic stylistics Text Types and Corpora Andreas Fischer,Gunnel Tottie,Hans Martin Lehmann,2002 The Pragmatics of Irony and Banter Manuel Jobert,Sandrine Sorlin,2018-04-25 The Pragmatics of Irony and Banter is the first book length study analysing irony and banter together This approach inherited from Geoffrey Leech s research implies that the two notions are intrinsically related In this thought provoking volume the various contributors linguists stylisticians discourse analysts and literary scholars while not necessarily agreeing on every aspect of this theoretical premise discuss and develop the idea In turn they consider the workings of these two discursive practices in various corpora face to face or digitally mediated interactions novels comedy shows etc thus providing a wealth of examples and case studies This well balanced positioning helps the reader to develop a better understanding of these complex discursive practices that play a crucial part in everyday interaction Steering a course between traditional perspectives and new theoretical approaches this innovative and exciting way of looking at irony and banter will no doubt open new avenues for research **Pragmatics of Discourse** Klaus P. Coherence and Cohesion in Spoken and Written Discourse Olga Dontcheva-Navratilova,Renata Povolná,2020-07-13 Coherence and Cohesion in Spoken and Written Discourse provides new insights into the various ways coherence works in a wide spread of spoken and written text types and interactional situations all of which point to the dynamics and subjectivity of its nature Despite the variety of approaches the authors adopt they share an understanding of language as a dynamic and

heterogeneous system mediating interaction in social and cultural contexts and explain how coherence and cohesion are reflected in different contextually bound aspects of human communication The chapters of the book comprise essays by linguists working in the fields of pragmatics discourse analysis and stylistics which explore features contributing to the perception of cohesion and coherence in spoken and written varieties of English namely impromptu academic and political discourse within the former variety and media academic and fictional discourse within the latter This volume which combines theoretical insights with practical analyses of different varieties of spoken and written English discourse will be of interest to a wide range of researchers scholars and students of English
