compulsory courses Introduction to Chemical Engineering The first year courses provides the students a comprehensive
exposure to the nature of the chemical engineering field as well as to the wide variety of career opportunities available to
them upon completion of their chemical engineering education The students get a glimpse into the types of activities that
comprise the responsibilities of different positions in the chemical engineering field For the students the value of these
courses comes from understanding their possible career paths discovering their abilities and competencies and overall being
in a better position to make an informed decision regarding their career choice early in their college education The students
also get to interact with the chemical engineering faculty and know them from the very first semester of their college
education The faculty too get to know and develop relationships with the students practically from their first day of college
These courses help the faculty assess the interest and aptitude of an individual to succeed as a chemical engineer identify
and assist individuals needing extra attention as well as encourage nurture and mentor the truly gifted ones Such
introductory courses having these objectives are becoming a norm for the chemical engineering programs leading to degree
