**Provocative and Contemplative Quotations** John L. Bowman,2013-12-10 Emerson wrote that thinking is hard to do which is why so few do it Socrates asserted the unexamined life is not worth living Franklin pondered prudence Sartre examined the existentialist void Bothius described the wheel of fortune Cicero mused on old age Shakespeare dramatized revenge La Rochefoucauld unveiled vices tribute to virtue Montaigne said no wind works for those with no port of destination and Sophocles explained it is a mistake to wait until evening to see how splendid the day has been For millennia brilliant historic thinkers have pondered timeless truths about human nature Many provocative and contemplative ideas have resonated through time proving as meaningful today as in the past This book offers a compendium of thought provoking quotations along with cogent author comments It is a celebration of thinking and thought never goes out of fashion

**Antilogic** Bruce McComish,2001-11-28 There are many strange phenomena in the world of business and finance We discover many curious things comic and contentious that are not all explained by conventional finance or economic theory rather they follow the rules of antilogic Financial practitioners have been attempting to quantify monitor and control financial risk and yet in spite of modern quantitative analysis and highly sophisticated modelling techniques they are no more successful in this than in the past the world of finance and business just doesn't add up This highly controversial and thought provoking book written in a light and humorous style will not only entertain but also challenge readers to question conventional wisdom This book provides a clear look at the antilogic of the business world and financial markets It describes the background conditions that encourage the creation of antilogic and demonstrates how business personalities generate the antilogic concept Shows the antilogic created by accountants and looks at the role of cash and makes the discovery that much of antilogic stems from accepting as money something different which is defined in the book as Vapourcash and Anticash *Architectures of Economic Subjectivity* Sonia Marie Scott,2013 The history of European economic thought has long been written by those seeking to prove or disprove the truth value of the theories they describe This work takes a different approach It explores the philosophical groundwork of the theoretical structure within which economic subjects are presented Demonstrating how the subjects of economic texts tend to be defined in and through their relationship to knowledge this study addresses the epistemological constitution of subjectivity in economic thought Publisher's website

**Nature and Experience in the Culture of Delusion** D. Kidner,2012-03-06 While the historical development of symbolic power has benefitted humanity enormously there is an insidious and seldom recognised price that goes beyond environmental degradation and cultural disintegration With insights from both social and natural sciences this book explores the changing character of subjectivity in contemporary life [Frozen Desire](#) James Buchan,1998 [Frozen Desire](#) is concerned with humanity itself Describing a portrait of Judas Buchan observes Money provokes people to act for the sake of payment in a fashion that if they knew how the action would turn out they would not contemplate This sustained wide ranging essay has

a spiritual quality Paul Bailey Daily Telegraph Books of the Year A delightfully quirky book about one man's obsession with everybody else's obsession with money a great read William Keegan Guardian An original elegant powerful and often beautiful work Buchan in full flow is magnificent Nick Cohen New Statesman Easily the most pleasure I've had from a book this year A journey through the dangerous and little exposed country between the novelist's rough pasture and the neat fields of the economist Martin Taylor Sunday Telegraph Buchan's picture of monetary culture strikes me as irrefutable Michael Dirda Washington Post A fascinating book full of learning and poetically written For its many insight into what money has meant to different people in history as well as for its passion Frozen Desire deserves to be read The Economist

**Ice and Cold Storage** ,1902 **A Reading of Anxiety** Christian Fierens,2024-11-29 A Reading of Anxiety follows the sessions of Lacan's Seminar X examining its presentation of the structure of anxiety step by step Christian Fierens considers why and how the structure of anxiety always depends on speech even if it remains on the threshold between the symbolic and the real and explains that there is a genuine connection between anxiety and the Lacanian object a which puts in doubt the obviousness of any object The book then explores the importance of anxiety for the practice of the analyst determines that the object a is fundamentally void and discusses encountering nothingness Finally Fierens establishes that this nothingness inside the object and inside anxiety leads to the truth of anxiety A Reading of Anxiety will be an essential book for students as well as clinicians to find a practical way to cope with anxiety as a clinical approach to the real in psychoanalysis It will be relevant to all readers interested in the work of Lacan
