Chaucer and the Art of Storytelling Leonard Michael Koff, 2023-04-28 Uncover the intricate artistry behind Geoffrey Chaucer's storytelling in this compelling study that redefines our understanding of his narratives and their profound social and moral dimensions. This book offers a fresh perspective on Chaucer's role as a storyteller, emphasizing his dedication to the collective wisdom of olden books and the communal experience of reading. Through a blend of historical and theoretical exploration alongside close readings of *The Canterbury Tales*, it reveals how Chaucer's narratives create a shared space for reflection, blending medieval traditions with universal themes. By exploring concepts like parabolic listening and the moral implications of storytelling, the book connects Chaucer's tales to their historical roots while showcasing their enduring relevance. Challenging long-held assumptions, *Chaucer and the Art of Storytelling* argues that Chaucer's works are not cryptic puzzles but accessible narratives designed to inspire collective understanding and individual self-awareness. Through in-depth analyses of tales like the Merchant's Tale, the Wife of Bath's Tale, and the Parson's Tale, the book illustrates Chaucer's ability to balance humor, morality, and social commentary. A must-read for anyone interested in medieval literature, this study illuminates Chaucer's narratives as living texts that connect readers across time, offering both historical insight and a celebration of the timeless art of storytelling. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. This study asks: What problems confront the narrator of a religious story and what different solutions to those problems are offered by the religious narratives of *The Canterbury Tales*? The introduction explains the grounds for inclusion of the tales here studied, then examined in three sections. The first includes the tales of the Clerk, Prioress, and Second Nun, and Chaucer's *Melibee* and explores the parallels between the production of a religious

narrative and that of a faithful translation The second considers how the tales of the Man of Law Monk and Physician though formally similar to those in the first section subvert the offered parallel by their creation of narrators who actively mediate them to their audience and who seem as concerned with the projection of their own personalities as with the transmission of the given story The final section shows how the tales of the Pardoner and Nun s Priest highlight the dilemma and provide distinctive resolutions The whole study aims to explore the dynamic relationships that exist between two contrasting positions an artist s commitment to the authority of a given story and his need to assert himself over it
