Factorization of Meromorphic Functions Fred Gross,1973 **Fix-points And Factorization Of Meromorphic Functions: Topics In Complex Analysis** Chung-chun Yang,Qitai Zhuang,1990-01-01 The fix points and factorization of meromorphic functions have become two research topics that have attracted many complex analysts attention throughout the world notably in U S China and Japan The first two chapters reintroduce Nevanlinna s theory of meromorphic functions and Montel s normal families theory for entire functions Based on these several theorems on fix points were derived The last two chapters introduce the factorization theory and the relationships between the fix points and factorization many recent results in factorization theory were reported and related open questions were raised for further study This book provides a timely introduction to some of the topics that are currently pursued by many complex analysts For instance the fix points of itrates of functions is closely related to the fractal mathematics which has just been realized to be useful in many branches of engineering and physics as well as in computer graphics *Fix-points and Factorization of Meromorphic Functions* Qitai Zhuang,Ch?i-t?ai Chuang,Chung-Chun Yang,1990 The fix points and factorization of meromorphic functions have become two research topics that have attracted many complex analysts attention throughout the world notably in U S China and Japan The first two chapters reintroduce Nevanlinna s theory of meromorphic functions and Montel s normal families theory for entire functions Based on these several theorems on fix points were derived The last two chapters introduce the factorization theory and the relationships between the fix points and factorization many recent results in factorization theory were reported and related open questions were raised for further study This book provides a timely introduction to some of the topics that are currently pursued by many complex analysts For instance the fix points of itrates of functions is closely related to the fractal mathematics which has just been realized to be useful in many branches of engineering and physics as well as in computer graphics **Factorization Theory of Meromorphic Functions, and Related Topics** Yang Chung-Chun, **Factorization of Meromorphic Functions** Fred Gross,1972 **The factorization of entire and meromorphic functions** □□□,2003 On Periodic Left Factors of Meromorphic Functions Fred Gross,1969 **The Factorization of Certain Meromorphic Functions** Can Qiao Feng,2008 **The Factorization of Entire and Meromorphic Functions** , **Hypercomplex Analysis** Irene Sabadini,Michael Shapiro,Franciscus Sommen,2009-04-21 Contains selected papers from the ISAAC conference 2007 and invited contributions This book covers various topics that represent the main streams of research in hypercomplex analysis as well as the expository articles It is suitable for researchers and postgraduate students in various areas of mathematical analysis **Complex Analysis.  Chung-Chun Yang, Sheng Gong, 1993 Today there is increasing interest in complex geometry geometric function theory and
 integral representation theory of several complex variables The present collection of survey and research articles comprises
 a current overview of research in several complex variables in China Among the topics covered are singular integrals
 function spaces differential operators and factorization of meromorphic functions in several complex variables via analytic or
 geometric methods Some results are reported in English for the first time Asian Mathematical Conference, 1990 -

Factorization Theory of Meromorphic Functions , In this thesis we shall prove some results which in turn will allow us to
 solve some factorization problems in a systematic way Also we shall utilize new methods from theory of complex analytic sets
 and local holomorphic dynamics to solve some factorization problems In Chapter 3 by using an extended version of
 Steinmetz's theorem we prove that certain class of meromorphic functions is pseudo prime Hence we can prove that under
 certain conditions $R(z)H(z)$ is pseudo prime where $R(z)$ is a non constant rational function and $H(z)$ is a finite order periodic
 function In Chapter 4 we try to find out all possible factorizations of $p(z)H(z)$ when H is an exponential type periodic function
 and p is a non constant polynomial This confirms a conjecture of G D Song and C C Yang In Chapter 5 we shall use results
 from theory of complex analytic sets to prove certain criteria on the existence of a non linear entire common right factor of
 two entire functions Applying these criteria we can then prove that if f is an entire function which is pseudo prime and not of
 the form $H(Q(z))$ where H is a periodic entire function and Q is a polynomial then $R(f(z))$ is also pseudo prime for any non
 constant rational function R This result essentially solves a problem of G D Song and is a fundamental property of pseudo
 prime function We also give other applications of these criteria to unique factorization problems In Chapter 6 we consider
 the unique factorization problems of $f \circ p$ and $p \circ f$ where f is a prime transcendental entire function and p is prime
 polynomial We shall use methods from local holomorphic dynamics to solve these problems **Analytic Function Theory of**
