Fleeing Babylon:

Fleeing Babylon Philip Evans, 2002 **The Human Faces of God** Thom Stark, 2011 Does accepting the doctrine of biblical inspiration necessitate belief in biblical inerrancy The Bible has always functioned authoritatively in the life of the church but what exactly should that mean Must it mean the Bible is without error in all historical details and ethical teachings What should thoughtful Christians do with texts that propose God is pleased by human sacrifice or that God commanded Israel to commit acts of genocide What about texts that contain historical errors or predictions that have gone unfulfilled long beyond their expiration dates In *The Human Faces of God* Thom Stark moves beyond notions of inerrancy in order to confront such problematic texts and open up a conversation about new ways they can be used in service of the church and its moral witness today Readers looking for an academically informed yet accessible discussion of the Bible's thorniest texts will find a thought provoking and indispensable resource in *The Human Faces of God* **A New Heaven and a New Earth** Dave Mathewson, 2003-05-01 In this book the author attempts to move beyond merely identifying and substantiating OT allusions in Revelation to considering how the presence of OT allusions and echoes affects reading Rev 21 1 22 5 and how the OT functions within the context of the entire work The author concludes that a variety of semantic effects are evoked by the author's continuous intertextual appeal to the OT new creation new exodus new Jerusalem new covenant bridge new temple priesthood paradise restored and renewed inclusion of the nations prophetic legitimization The numerous allusions function to shape the reader's perception of eschatological hope *God, AI and the End of History* John C. Lennox, 2025-07-17 Are Artificial Intelligences the Future's False Gods In *God AI and the End of History* renowned author and Oxford mathematician John Lennox explores the explosive intersection of artificial intelligence biblical prophecy the Antichrist and the end times As Artificial Intelligence AI technology advances at an unprecedented pace many experts are asking Could AI or Artificial Super Intelligences ASI one day dominate the world Unlike other books on AI or biblical prophecy Lennox breaks new ground by connecting the rise of superintelligent machines with the apocalyptic visions recorded in Revelation He warns that future developments in AI could deceive billions just as foretold in Scripture engineered by the one Jesus called the father of lies and whom the apostle John identified as the Antichrist This compelling deeply researched book offers a unique Christian perspective on AI ethics and eschatology challenging readers to rethink how Jesus' final message to his followers may speak directly to our rapidly changing technological world If you're questioning AI and curious about what the Bible prophecy and emerging technologies reveal about end time events this is the essential guide you've been waiting for [The Preacher's Commentary, Complete 35-Volume Set: Genesis - Revelation](#) Leslie C.
