Freese, Sebastiaan Meijer**

Games And Simulations Made Easy:

Gaming as a Cultural Commons Toshiko Kikkawa, Willy Christian Kriz, Junkichi Sugiura, 2022-04-23 This book focuses on relatively neglected areas of simulation and gaming S G i e cultural aspects and ethical issues in addition to giving readers a basic knowledge of S G Although the educational effects of S G and related methods such as gamification as well as serious games have been studied and are gaining recognition their downsides are often overlooked For example there is always a risk of manipulation by games if maliciously designed and facilitated Ethical codes of game designers facilitators and educators must be established on the basis of academic research Considerations of the ethics of games are essential not only for S G researchers and educators but also for the general public because games have sometimes been used for propaganda purposes in the past and could be again in the present and future Looking at the cultural aspect as the S G community has accumulated research over 50 years the book includes the knowledge of the pioneers i e archival interview data This is the first book that includes extensive interviews of researchers and commercial game designers and critics It also contains diverse topics from the perspective of gender and Japanese culture Japan has been attracting attention in the field of board games as there are many independent game designers and an expanding market Although women in S G have gained some recognition the topic has been rather ignored and was first officially discussed in 2019 at the international conference of the International Simulation and Gaming Association held in Warsaw In summary by focusing on comparatively overlooked or neglected aspects of S G this book expands future opportunities in the field for researchers and educators with increased awareness by the general public

Transferring Gaming and Simulation Experience to the Real World Toshiko Kikkawa, Willy Christian Kriz, Junkichi Sugiura, Marieke de Wijse-Van Heeswijk, 2025-02-24 This book focuses on how to connect the gaming experience to the real world Looking back at the history of the Simulation and Gaming field it has offered the solution to social problems such as policy making decision making for business strategies education and training environmental issues urban planning or disaster awareness In other words Gaming Simulation always has had a close connection to the reality The interconnected modern societies nowadays have become even more complex and ambiguous as the UN SDGs goals show Gaming is one of the suitable tools to suggest ways to achieve our goals in a world of uncertainty Learning starts by experiencing games and their effects in a safe environment An important part of the gaming simulation process are methods for a transfer of the game based learning to and an application within reality However connecting the experience to reality is not always facile for all the participants no matter how comprehensive the debriefing is In addition to debriefing further transfer methods and conditions have to be implemented in order to create a real change of behavior and systems The book s authors tackle the challenge by introducing concrete practices and offering various hints for readers struggling to solve a similar issue In addition when applying the experience of gaming we have to carefully consider several ethical issues which are also covered in this book

Legacy and Future Impact of Gaming Simulation Pioneers Willy

Christian Kriz, Toshiko Kikkawa, Marieke de Wijse-Van Heeswijk, Heide Lukosch, 2025-04-10 This book is a tribute to two pioneers in the field of gaming simulation Richard de la Barre Duke and Cathy Stein Greenblat Duke was a professor of urban planning at the University of Michigan who introduced gaming simulation into urban planning and policy making in the early 1970s With his 1974 book *Gaming The future s language* he proposed simulation games as a multilogue language for bringing different disciplines and stakeholders perspectives together He was co founder of the International Simulation and Gaming Association ISAGA Cathy Stein Greenblat was a professor of sociology at Rutgers University using gaming simulation education and health care beginning in the mid 1970s She was editor in chief of the international journal *Simulation Gaming* for many years Duke and Greenblat worked together and authored several influential books and both were honorary members of ISAGA until they passed away in 2022 The present book focuses on the past and actual scientific and practical impact of their work for design and development facilitation and debriefing evaluation and research of simulation games The book contains discussions and case examples of how their key concepts are still used and can be used in the future to have a social impact through gaming simulation Furthermore the book shows how their work and guiding simulation game design principles continue to inspire ongoing and future research in the context of dealing with complexity and to support social and environmental transition through gaming simulation Included are interviews with the two pioneers and contributions of other outstanding experts about their work

Games and Simulations Made Easy Ken Jones, 1997 This easy to use guide provides trainers and educators with a handy tool that will ensure they are making the most of games and simulations in their training and development programs Taking the reader from the basics to designing his or her own games and simulations the book is packed with tips and techniques to make games and simulations more effective It also includes four detailed and photocopyable icebreaker activities The author offers practical advice grouped around trainers key areas of concern The basics understanding the aims objectives and terminology The framework knowing what to do before and after the event Diverse pathways the different uses for games and simulations The nitty gritty hints on how when and where Behavior coping with emotion and troubleshooting

[Simulation and Gaming across Borders](#) Heide Lukosch, Maria Freese, Sebastiaan Meijer, 2025-05-05 This book constitutes the refereed proceedings of the 55th International Simulation and Gaming Association Conference held in Christchurch New Zealand during July 8 12 2024 The 20 full papers in this book were carefully reviewed and selected from 25 submissions This year s theme has been *Simulation and Gaming across Borders* The 2024 conference underscored the global and interdisciplinary reach of simulation and gaming as tools for education research and social change The proceedings presented here capture the breadth of this convergence highlighting innovative applications emerging ethical considerations intercultural dynamics and new frontiers in facilitation techniques
