Precautionary Statements

There are four types of Precautionary Statements used on labels:

Prevention – Statements meant to keep you from harm.
Example: "Wear protective gloves."

Response – Statements providing steps to take if you have been exposed to a chemical hazard.
Example: "Immediately call a poison center or doctor/physician."

Storage – Explains the safe way to store the chemical.
Example: "Keep container tightly closed."

Disposal – The last statement explains to the employer/employee how to dispose of the chemical safely.
Example: "Dispose of contents/container in accordance with local regulations."

Minimum Requirements for a Chemical Label

- Product Identifier** – This is the unique name or number used to identify a hazardous chemical. The same (Product) Identifier must be used for the label, SDS and required company chemical list for each chemical.
- Signal Word** – A word used to alert employees of a potential hazard and its relative level of severity. The two signal words used are:
Danger – Used for more severe hazards.
Warning – Used for less severe hazards.
- Supplier Identification** – The name, address, and telephone number of the supplier.
- Hazard Statements** – Information describing the nature of the chemical hazard and the degree of the hazard. (Example: "Fatal if swallowed.")
- Precautionary Statements** – A phrase describing recommended measures to be taken to minimize or prevent adverse effects resulting from exposure to the hazardous chemical or improper storage or handling. See additional information to the left.
- Hazard Pictograms** – A symbol which is intended to convey specific information about the hazards of a chemical. See additional information above.
- Supplemental Information** – Manufacturers, importers or distributors may choose to add supplementary information to the label when it provides further details, and does not contradict or cast doubt on the validity of the standardized hazard information.
