A God Complex Craig Downey, 2015-03-30 As we move into the next books in the series I am probably skirting very close to the edge of what would be one of the symptoms of my condition But it was very hard to leave much of this material out for a number of reasons The first of these is that one cannot describe the lust for life that can be obtained when suffering the extremes of some conditions such as manic depression and some of the insights one discovers in the peaks of these conditions can be just as the book states it That is to say if one has clarity during these times Much of the material I have written during these times are actually during such experiences but in hindsight during editing the material appears so comprehensive and logical I decided to include it to really give one insight into some true inner workings of the mind and the bigger issues we can face in our lives

The Diasporic Condition Ghassan Hage, 2021-11-05 Bridging the gap between migration studies and the anthropological tradition Ghassan Hage illustrates that transnationality and its attendant cultural consequences are not necessarily at odds with classic theory In The Diasporic Condition Ghassan Hage engages with the diasporic Lebanese community as a shared lifeworld defining a common cultural milieu that transcends spatial and temporal distance a collective mode of being here termed the diasporic condition Encompassing a complicated transnational terrain Hage s long term ethnography takes us from Mehj and Jalleh in Lebanon to Europe Australia South America and North America analyzing how Lebanese migrants and their families have established themselves in their new homes while remaining socially economically and politically related to Lebanon and to each other At the heart of The Diasporic Condition

lies a critical anthropological question How does the study of a particular sociocultural phenomenon expand our knowledge of modes of existing in the world As Hage establishes what he terms the lenticular condition he breaks down the boundaries between us and them here and there showing that this convergent mode of existence increasingly defines everyone s everyday life

Ripe Musings Lucian Krukowski,2011-09-28 Musings are recollections of memories of dreams of ideas Such recollections are persistent because they remain unresolved whether as concepts about the world or as actions taken or avoided in art life and love My musings are ripe because I have been chewing on them for many years I am an old painter and a somewhat younger philosopher and I remain concerned with how these fit together So my first essay is about my journey through the landscape of such fitting This done I take on some art of our and other times that I revere or dislike Then as I am not a believer in straight paths I go on to muse on how the world was before it began and how it will be after it ends and how we can be who s and whats in places that are not the same I return to art to argue against theories that champion brain over mind and I enlist my artist dog to illustrate my argument My musings end with a broader journey that pits the alternate societies of crooked and straights in their strivings for fulfillment and their needs on occasion to come together
