of their previous social status As historian H W Brands put it The old American Dream was the dream of the Puritans of Benjamin Franklin s Poor Richard of men and women content to accumulate their modest fortunes a little at a time year by year by year The new dream was the dream of instant wealth won in a twinkling by audacity and good luck While the gold rush may not have made every miner rich the events still continue to influence the country s collective mentality **Good Time Girls of the Alaska-Yukon Gold Rush** Lael Morgan,1999 Morgan offers an authentic and deliciously humorous account of the prostitutes and other disreputable women who were the earliest female pioneers of the Far North At the turn of the century tens of thousands of Americans left their homes escaping a worldwide depression ruthless heartbreakers Cad Wilson French Marie Larose who auctioned herself off as a wife to the highest bidder Edith Neile called the Oregon Mare famous for both her outlandish behavior her soft hearted generosity These good time girls crossed geographic social frontiers finding freedom independence hardship heartbreak sometimes astonishing wealth They were an important part of this key chapter in the history of the West which holds a special place in the American imagination *The California Gold Rush and the Klondike Gold Rush* Charles River Charles River Editors,2015-03-18 Includes pictures Includes accounts of the gold rushes written by participants Includes bibliographies for further reading Includes a table of contents One of the most important and memorable events of the United States westward push across the frontier came with the discovery of gold in the lands that became California in January 1848 Located thousands of miles away from the country s power centers on the east coast at the time the announcement came a month before the Mexican American War had ended and among the very few Americans that were near the region at the time many of them were Army soldiers who were participating in the war and garrisoned there San Francisco was still best known for being a Spanish military and missionary outpost during the colonial era and only a few hundred called it home Mexico s independence and its possession of those lands had come only a generation earlier Everything changed almost literally overnight While the Mexican American War technically concluded with a treaty in February 1848 the announcement brought an influx of an estimated 90 000 Forty Niners to the region in 1849 hailing from other parts of America and even as far away as Asia All told an estimated 300 000 people would come to California over the next few years as men dangerously trekked thousands of miles in hopes of making a fortune and in a span of months San Francisco s population exploded making it one of the first mining boomtowns to truly spring up in the West This was a pattern that would repeat itself across the West anytime a mineral discovery was made from the Southwest and Tombstone to the Dakotas and Deadwood Of course that was made possible by the collective memory of the original California gold rush Despite the mythology and the romantic portrayals that helped make the California Gold Rush most of the individuals who came to make a fortune struck out instead The gold rush was a boon to business interests which ensured important infrastructure developments like the railroad and the construction of westward paths but ultimately it also meant that big business reaped most of the profits associated with mining the gold While the Forty Niners are often remembered for
