Freeing Intelligence Through Teaching Gardner Murphy, 1961 **Freeing Intelligence Through Teaching. A Dialectic of the Rational and the Personal ... Foreword by Arthur G. Wirth** Gardner Murphy, 1961 *The Literature of Education* W. Kenneth Richmond, 2019-01-15 Original blurb The volume of writing on educational topics has increased so prodigiously in recent years that the student is likely to lose himself in a sea of print This may lead him to opt for the first book that comes to hand or waste time rifling through half a dozen when a thorough grasp of one key text is all that is needed Reading lists commonly look impressive not to say daunting In fact the multifarious titles conceal an enormous amount of duplication an endless raking over of other people s research findings It is a safe bet writes W Kenneth Richmond that less than 5 percent of the contents of any new book on education will be in any way original This critical bibliography originally published in 1972 is concerned with the noteworthy books and major official reports that had appeared in the English language during the twenty five years prior to publication In his introduction and in the commentaries prefacing each section the author explains the background to the genuinely new departures of the period and describes successive changes in the climate of educational opinion **Objectives and Perspectives in Education** Ben Morris, 2013-04-15 Originally published in 1972 the emphasis of this book is on psychological and cultural understanding of education in terms of persons and relationships rather than processes The book Deals with issues of continuing relevance for educational thought and practice such as the education and training of teachers and diminishing the gap between schooling and education Considers the nature and function of educational research the conflict between arts and sciences in education and the concept of guidance Examines teaching in its interpersonal context and at the revolt of youth and the sexual revolution Assesses the influence of Freud Winifred Mercier William Boyd and Herbert Read *Crusade for Democracy* Daniel Tanner, 1991-01-01 This book tells the fascinating story of the Progressive Education movement of the 1930s and 1940s which remains the most original and powerful intellectual force ever generated within professional education in this country At the core of the story is the founding and early activities of the John Dewey Society for the Study of Education and Culture In this compelling narrative Daniel Tanner details through close examination of the scholarly literature and heretofore unexamined archival materials the colorful personalities and powerful philosophies of this group of educators who worked from the conviction that the struggle and growth of American democracy could not be conducted apart from the public schools Tanner shows that the issues which gave birth to the John Dewey Society and to which the Society directed its attention in the early years are perennial ones the appropriate relationship between school and society the purpose of education in a democratic society social inequality textbook censorship academic freedom and so on This history illuminates our present as well as our past **Educational Technology and the Teaching-learning Process** Jeanne Saylor Berthold, 1969 About 900 references from mostly books and journals to July 1 1969 This bibliography is intended to serve as an introduction to the literature on

the teaching learning process and on the various new approaches in the field of teaching technology Entries arranged in broad classified order No index *Careers in Theory and Experience* Warren D. Gribbons, Paul R. Lohnes, 1983-06-30 This book tells what happens in terms of career development during the 20 years following the 8th grade The first 20 year longitudinal study of career development in America in the post World War II period to have reached publication stage it is also the only such study that includes women in its sample The research was designed to test the best theoretical formulations available Its findings provide clear and convincing tests of existing developmental theory support useful extensions of theory and stimulate hypotheses for future research Two important aspects of the research program are the production of a new measurement technique for scaling vocational maturity in adolescents and refinement of an innovative statistical methodology for career development modeling The new measurement device entitled Readiness for Career Planning is applicable to both counseling guidance programs and research programs The statistical strategy combining multiple discriminant analysis and Markov chain analysis in a coherent modeling procedure is a major innovation in data analysis procedures for research on careers Beyond these technical contributions the book is highly readable on a non technical level It provides provocative and helpful insights into the experience of developing careers in America to readers in many walks of life Appended to this study is a NEW READINESS FOR CAREER PLANNING RCP INSTRUMENT AND MANUAL for use by the school counselor and educational psychologist Bulletin Chicago Teachers' Federation, 1903 The School Journal, 1904 **A History of Western Philosophy of Education in the Contemporary Landscape** Anna Pagès, 2021-01-28 This volume traces the history of Western philosophy of education in the contemporary landscape 1914 2020 The volume covers the Cuban Revolution in 1959 the events of May 1968 in Paris the Zapatista Revolution in 1994 and the Arab Spring revolutions from 2010 to 2012 It also covers the two World Wars the Cold War the fall of the Berlin Wall and the triumph of science and technology until the hegemony of post liberal societies The philosophical problems covered include justice freedom critical thought equity philosophy for children decolonialism liberal education feminism and plurality These problems are discussed in relation to the key philosophers and pedagogues of the period including Jacques Derrida Paulo Freire Simone De Beauvoir Judith Butler R S Peters bell hooks Martha Nussbaum Matthew Lipman Giorgio Agamben Maxine Greene and Simone Weil among others About A History of Western Philosophy of Education An essential resource for researchers scholars and students of education this five volume set that traces the development of philosophy of education through Western culture and history Focusing on philosophers who have theorized education and its implementation the series constitutes a fresh dynamic and developing view of educational philosophy It expands our educational possibilities by reinvigorating philosophy's vibrant critical tradition connecting old and new perspectives and identifying the continuity of critique and reconstruction It also includes a timeline showing major historical events including educational initiatives and the publication of noteworthy philosophical works *Proceedings, Abstracts of Lectures and a Brief Report of the*
