# REPETITION

Repetition breeds consistency in a design. Once a design pattern has been established - for example, a button border or a specific typography styling - repeat the pattern to establish consistency. The short version: To create a style for each element in a design and use it on similar elements.

# PROXIMITY

Proximity allows for clear unity in a design. If two elements are related to each other, they should be placed in close proximity to one another. Being in close proximity allows related elements, organization, and increases viewer comprehension.
