Getting Physical:

Spectacular Bodies Yvonne Tasker, 2012-10-02 While films such as Rambo Thelma and Louise and Basic Instinct have operated as major points of cultural reference in recent years popular action cinema remains neglected within contemporary film criticism Spectacular Bodies unravels the complexities and pleasures of a genre often dismissed as obvious in both its pleasure and its politics arguing that these controversial films should be analysed and understood within a cinematic as well as a political context Yvonne Tasker argues that today's action cinema not only responds to the shifts in gendered sexual and racial identities which took place during the 1980s but reflects the influences of other media such as the new video culture Her detailed discussion of the homoeroticism surrounding the muscleman hero the symbolic centrality of blackness within the crime narrative and the changing status of women within the genre addresses the constitution of these identities through the shifting categories of gender class race sex sexuality and nation Spectacular Bodies also examines the ambivalence of supposedly secure categories of popular cinema questioning the existing terms of film criticism in this area and addressing the complex pleasures of this neglected form

What Do Pictures Want? W. J. T. Mitchell, 2013-12-23 Why do we have such extraordinarily powerful responses toward the images and pictures we see in everyday life Why do we behave as if pictures were alive possessing the power to influence us to demand things from us to persuade us seduce us or even lead us astray According to W J T Mitchell we need to reckon with images not just as inert objects that convey meaning but as animated beings with desires needs appetites demands and drives of their own What Do Pictures Want explores this idea and highlights Mitchell's innovative and profoundly influential thinking on picture theory and the lives and loves of images Ranging across the visual arts literature and mass media Mitchell applies characteristically brilliant and wry analyses to Byzantine icons and cyberpunk films racial stereotypes and public monuments ancient idols and modern clones offensive images and found objects American photography and aboriginal painting Opening new vistas in iconology and the emergent field of visual culture he also considers the importance of Dolly the Sheep who as a clone fulfills the ancient dream of creating a living image and the destruction of the World Trade Center on 9/11 which among other things signifies a new and virulent form of iconoclasm What Do Pictures Want offers an immensely rich and suggestive account of the interplay between the visible and the readable A work by one of our leading theorists of visual representation it will be a touchstone for art historians literary critics anthropologists and philosophers alike A treasury of episodes generally overlooked by art history and visual studies that turn on images that walk by themselves and exert their own power over the living Norman Bryson Artforum

Fitness Fiesta! Petra R. Rivera-Rideau, 2024-08-23 As a fitness brand Zumba Fitness has cultivated a devoted fan base of fifteen million participants spread across 180 countries In Fitness Fiesta Petra R Rivera Rideau analyzes how Zumba uses Latin music and dance to create and sell a vision of Latinness that's tropical hypersexual and party loving Rivera Rideau focuses on the five tropes that the Zumba brand uses to create this Latinness authenticity fiesta fun dreams and love

Closely examining videos ads memes and press coverage as well as interviews she conducted with instructors Rivera Rideau traces how Zumba Fitness constructs its ideas of Latinx culture by carefully balancing a longing for apparent authenticity with a homogenization of a marketable south of the border style vacation She shows how Zumba Fitness claims to celebrate Latinx culture and diversity while it simultaneously traffics in the same racial and ethnic stereotypes that are used to justify racist and xenophobic policies targeting Latinx communities in the United States In so doing Rivera Rideau demonstrates not only the complex relationship between Latinidad and neoliberal postracial America but also what that relationship means for the limits and possibilities of multicultural citizenship today
