Getting What Want From Meetings:

How to Lead an Effective Meeting (and get the results you want) Dick Massimilian, 2016-06-05 It seems these days that everyone hates meetings How many times have you heard someone say We have too many meetings or I am booked so solid every day in meetings I never have time to get anything done or I m back to back But when you talk to people it isn t that they hate meetings it s that they don t like meetings in which nothing gets done No one is sure why the meeting was called or why half the people are in the room or what exactly is supposed to get done or what was decided We complain about meetings but we seem to attend more and more of them This book is for people who need to lead effective meetings in any context It is a blueprint for how to have your meetings work defined as meetings that achieve the results you want to achieve in the meeting and afterwards It s a how to guide for using the time you spend planning organizing and conducting meetings wisely It s about getting results through meetings Why are effective meetings important Meeting quality matters Well run organizations have well run meetings Sloppily run organizations have sloppily run meetings What are the signs of a bad meeting The meeting starts late There is no agenda The meeting runs over No one is sure what if anything was decided or accomplished The same meeting to discuss the same topic seems to be held over and over again No one knows what the next steps are or who is supposed to follow up whom for what Someone monopolizes the meeting and someone else talks in circles while yet someone else seems to simply rephrase and repeat what has already been said Nothing discourages people whether volunteers or employees like feeling they are wasting their time Too many meetings waste time They sap morale and leave people frustrated or irritated This is a shame as leading an effective meeting is not rocket science once you have a blueprint If you have an allergic reaction to wasting time in meetings this book is for you It is divided into five principal sections Preparation Invitation Agenda Delivery Follow Up The sections outline the five phases of a meeting For your meeting to be successful again defined as a meeting that achieves the results you want to achieve you must execute each phase successfully Meetings versus Presentations The tips in this book are intended to apply to both meetings in which various people interact in a more or less informal setting and presentations occasions on which a speaker presents material to an audience in a structured more or less formal setting Some principles apply more directly to meetings others to presentations All are relevant to both
