Full colour pictures, clear diagrams and genuinely practical advice combine to make Start Up Slide Guitar do exactly what it says on the cover. You'll start off on the right track and that makes everything else come more easily. **Beginner Guitar** Christian J. Triola,2018-07-23 There's something irresistible about guitar. It's music and art. Modern and classic. Beautiful and rugged. It's time alone and time with friends. It's timeless. It's for everyone. It's a whole lot of fun. And now it's easier to learn than ever before. Learn at your own pace. You open the book, flip past the section about the various types of guitars and equipment. You're on a mission. You're thinking of that guitar you've had sitting in the corner. The one you promised yourself you'd learn how to play. You pick it up, turn to the section on tuning and before long you're ready to go. Next you follow the tabbed pages to the section on chords. In minutes you've learned how to read rhythm slashes and you're successfully strumming a couple of chords. On a high you flip to the section on note reading. Minutes later you can play three notes on the first string and for the first time ever you're reading the notes on a staff and keeping time. This is fun. You flip to the tablature section. Woah, this looks different but you read through the brief instructions and once again you find you can do it. Now you're playing notes on multiple strings and wait, did I just play a song? Why didn't I start playing years ago, you ask yourself. That's because you never
