Edited by Ayelet Shachar, Rainer Bauböck, Irene Bloemraad, and Maarten Vink

Contrary to predictions that it would become increasingly redundant in a globalizing world, citizenship is back with a vengeance. *The Oxford Handbook of Citizenship* brings together leading experts in law, philosophy, political science, economics, sociology, and geography to provide a multidisciplinary, comparative discussion of different dimensions of citizenship: as legal status and political membership; as rights and obligations; as identity and belonging; as civic virtues and practices of engagement; and as a discourse of political and social equality or responsibility for a common good.

This *Handbook* is the major reference work for those engaged with citizenship from a legal, political, and cultural perspective. Written by the most knowledgeable senior and emerging scholars in their fields, this comprehensive volume offers state-of-the-art analyses of the main challenges and prospects of citizenship in today's world of increased migration and globalization. Special emphasis is put on the question of whether inclusive and egalitarian citizenship can provide political legitimacy in a turbulent world of exploding social inequality and resurgent populism.

"The definitive source on a critical concept in political and social life. Innovative in its conception and authoritative in its execution." – J.H.H. Weiler, NYU School of Law

"This is an invaluable *Handbook*. No other single volume achieves the theoretical acuity, historical depth, legal grounding, and sociological analysis of citizenship that this book manages to achieve. It is clear, wide ranging, and admirably un-parochial in the range of its references. By focusing on a wide range of citizenship claims, from those of dominant groups seeking to exclude to marginalized groups struggling for legal recognition, the *Handbook* enlarges our sense of the moral stakes and political struggles at the heart of citizenship." – Pratap Bhanu Mehta, Centre for Policy Research
